

Ultra Jag 35 / 9mm Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag – it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom “clean until you get a clear patch” you might be in for a long night. Tipton®’s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

Tipton Ultra Jag Safety Instruction Guide

Introduction

Thank you for choosing the Tipton Ultra Jag for your cleaning needs. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the Ultra Jag.

General Safety Guidelines

- Ensure that the Ultra Jag is used only for its intended purpose, which is to clean firearm bores.
- Always follow the manufacturer's instructions for use and maintenance.
- Keep the Ultra Jag out of reach of children and vulnerable individuals.
- Be aware of the cleaning solvents being used. Ensure they are suitable for use with the Ultra Jag and follow the manufacturer's safety guidelines for those products.
- Regularly inspect the Ultra Jag for any signs of wear or damage before use. Do not use if damaged.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when handling cleaning solvents to avoid skin and eye contact.
- Ensure that the area where you are cleaning firearms is wellventilated to avoid inhaling fumes from cleaning solvents.
- Do not mix different cleaning solvents, as this may create hazardous chemical reactions.
- Always point the firearm in a safe direction and ensure it is unloaded before using the Ultra Jag.
- Use caution when inserting and removing the Ultra Jag from the firearm bore to avoid injury or damage.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather your cleaning supplies, including the Ultra Jag, cleaning solvent, and a cleaning rod.

2. Using the Ultra Jag

- Apply a modern bore solvent to the brass cleaning jag.
- Insert the Ultra Jag into the bore of the firearm. Push it gently through the bore.
- Observe the color of the solvent as it drips off the jag. If it turns blue, it indicates copper fouling.
- Continue cleaning until you see consistent blue stains, confirming effective cleaning.

3. PostCleaning

- After use, clean the Ultra Jag with a suitable solvent to remove residue.
- Store the Ultra Jag in a dry place, away from direct sunlight and extreme temperatures.

Disposal Instructions

- Dispose of used cleaning solvents and materials in accordance with local regulations. Do not pour solvents down the drain.
- The Ultra Jag can be disposed of as regular waste unless it shows signs of damage or contamination. In such cases, follow local hazardous waste disposal guidelines.

Contact Information for Further Support

For any safety inquiries or product support, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective cleaning experience with your Tipton Ultra Jag.
