

Ultra Jag 40 / 416 Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag – it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom “clean until you get a clear patch” you might be in for a long night. Tipton®’s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

Tipton Ultra Jag Safety Instructions

Introduction

Thank you for choosing the Tipton Ultra Jag for your cleaning needs. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the manufacturer's instructions for safe handling and use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the product.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate protective gear, such as safety goggles and gloves, when using cleaning solvents.
- Use the Ultra Jag in a wellventilated area to avoid inhaling fumes from solvents.
- Do not mix different cleaning solvents, as this may create hazardous reactions.
- Avoid contact with skin and eyes. If contact occurs, rinse immediately with plenty of water and seek medical attention if necessary.
- Store cleaning solvents and the Ultra Jag in a cool, dry place, away from direct sunlight and heat sources.
- Do not use the Ultra Jag if it shows signs of damage or wear, as this may compromise its effectiveness and safety.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the Ultra Jag, cleaning solvent, and protective gear.
- Ensure that your firearm is unloaded and pointed in a safe direction before cleaning.

2. Using the Ultra Jag:

- Attach the Ultra Jag to your cleaning rod securely.
- Apply a modern bore solvent to the brass cleaning jag.
- Observe the solvent as it drips off the jag. If it changes color (e.g., turns blue), it indicates the presence of copper fouling.
- Clean the barrel according to the manufacturer's recommendations, ensuring that you do not exceed the safe limits of cleaning solvent exposure.

3. PostUse Care:

- After cleaning, remove the Ultra Jag from the cleaning rod.
- Rinse the jag with clean water to remove any residual solvent.
- Dry the Ultra Jag thoroughly before storing it to prevent corrosion.

Disposal Instructions

- Dispose of any used cleaning solvents in accordance with local regulations.
- Do not pour solvents down drains or dispose of them in regular household waste.
- Check with your local waste management facility for proper disposal methods for hazardous materials.

Contact Information for Further Support

For safety inquiries or additional support regarding the Tipton Ultra Jag, please refer to the manufacturer's contact information provided on the product packaging or the official website.

By following these safety instructions, you can ensure a safe and effective cleaning experience with your Tipton Ultra Jag. Thank you for prioritizing safety and responsible use.
