

Ultra Jag - Ultra Jag 44 Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag – it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom “clean until you get a clear patch” you might be in for a long night. Tipton®’s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

Tipton Ultra Jag Safety Instruction Guide

Introduction

Thank you for choosing the Tipton Ultra Jag for your cleaning needs. This guide provides essential safety instructions to ensure the safe and effective use of the Ultra Jag 44 Caliber. Please read this guide carefully to understand how to use the product safely and efficiently.

General Safety Guidelines

- Always ensure you are using the product in a wellventilated area to avoid inhaling fumes from bore solvents.
- Keep the product out of reach of children and pets to prevent accidental ingestion or misuse.
- Store the Ultra Jag in a dry place away from direct sunlight and extreme temperatures to maintain its integrity.
- Regularly inspect the cleaning jag for any signs of wear or damage before use. Do not use if damaged.
- Dispose of used solvents and cleaning materials according to local regulations to prevent environmental harm.

Specific Safety Precautions for Use

- When using bore solvents, wear protective gloves and eyewear to avoid skin and eye irritation.
- Do not mix different cleaning solvents as this may lead to dangerous chemical reactions.
- Avoid contact with skin and eyes; in case of contact, rinse immediately with plenty of water and seek medical advice if irritation persists.
- Do not use the Ultra Jag with excessive force, as this may damage the product or your firearm.
- Always ensure the firearm is unloaded before cleaning to prevent accidental discharge.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded and in a safe position for cleaning.
- Gather all necessary cleaning supplies, including bore solvent, cleaning patches, and the Ultra Jag.

2. Using the Ultra Jag:

- Attach the Ultra Jag securely to your cleaning rod.
- Apply a modern bore solvent to the brass cleaning jag.
- Insert the jag into the bore of the firearm gently, ensuring that it fits snugly.
- Pull the jag through the bore, allowing the solvent to clean the interior surface.
- Repeat this process until you observe blue stains indicating copper fouling, ensuring that the blue stains are from fouling and not from the jag itself.

3. PostCleaning:

- After cleaning, inspect the bore and the jag to ensure no debris remains.
- Clean the Ultra Jag with a suitable solvent and dry it before storage.
- Store the jag in a designated place to avoid damage and ensure safety.

Disposal Instructions

- Dispose of any used cleaning solvents and materials in accordance with local waste disposal regulations.
- Do not pour solvents down the drain or in regular trash; instead, use designated hazardous waste

disposal sites.

Contact Information for Further Support

For any questions or concerns regarding the Tipton Ultra Jag, please refer to the manufacturer's website or contact the customer service department directly.

By following these guidelines, you can ensure a safe and effective cleaning experience with your Tipton Ultra Jag. Always prioritize safety and proper handling to maintain the longevity of the product and your firearm.
