

Ultra Jag 45 Caliber

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Jags](#)

Take a modern bore solvent and squirt it on a brass cleaning jag. The liquid will turn blue as it drips off the jag – it is working so fast, it starts to dissolve your cleaning jag in front of your eyes! If you are following conventional wisdom “clean until you get a clear patch” you might be in for a long night. Tipton®’s Ultra Jag™ features a patent-pending technology that covers the surface of a traditional push-type jag with solvent-proof material, keeping aggressive modern bore solvents from creating false blue stains that normally indicate copper fouling. When you use Ultra Jags, you will get better, faster cleaning results because you will know you are getting blue stains from copper fouling and not from the surface of your jag.

Tipton Ultra Jag Safety Instruction Guide

Introduction

Thank you for choosing the Tipton Ultra Jag 45 Caliber. This product is designed to provide efficient cleaning of your firearm's bore while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

General Safety Guidelines

- Always use the Tipton Ultra Jag in accordance with the manufacturer's instructions.
- Ensure that the area you are working in is wellventilated to avoid inhaling fumes from the bore solvents.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the Ultra Jag before each use for any signs of damage or wear.
- Do not use the Ultra Jag with solvents that are not recommended by the manufacturer.
- Follow local regulations and guidelines for the storage and disposal of cleaning solvents.

Specific Safety Precautions for Use

- Wear protective gloves when handling bore solvents to avoid skin irritation.
- Use safety goggles to protect your eyes from splashes of cleaning solvent.
- Avoid direct contact with the cleaning jag when it is saturated with solvent.
- Do not use the Ultra Jag on hot surfaces or in any way that may cause burns or injuries.
- If you experience any adverse reactions while using the product, discontinue use immediately and seek medical advice.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the Tipton Ultra Jag, bore solvent, cleaning rod, and protective gear.
- Ensure that your firearm is unloaded and pointed in a safe direction.

2. Using the Tipton Ultra Jag:

- Attach the Ultra Jag to the cleaning rod securely.
- Apply a modern bore solvent to the brass cleaning jag.
- Observe the liquid; it will turn blue as it drips off the jag, indicating that it is working effectively.
- Do not clean until you see a clear patch; instead, note that the Ultra Jag will help you identify genuine copper fouling.

3. PostUse:

- After cleaning, remove the Ultra Jag from the cleaning rod.
- Clean the Ultra Jag with a suitable solvent and allow it to dry completely before storage.
- Store the Ultra Jag in a cool, dry place away from direct sunlight.

Disposal Instructions

- Dispose of any used cleaning solvents according to local regulations.
- Do not pour solvents down drains or dispose of them in regular trash.
- Check with your local waste disposal authority for guidance on hazardous waste disposal.

Contact Information for Further Support

For any inquiries regarding the safety and use of the Tipton Ultra Jag, please refer to the manufacturer's website or customer support resources available in your region.

Conclusion

By following these safety instructions, you can ensure a safe and effective cleaning experience with the Tipton Ultra Jag 45 Caliber. Always prioritize safety and adhere to the guidelines provided to enjoy optimal performance from your cleaning products.
