

# Scope Ring Alignment and Lapping Kit 34mm - Scope Ring Alignment & Lapping Kit - 34mm Rings

[Gunsmith Tools](#) > [Sight & Scope Installation Tools](#) > [Scope Alignment Rods](#)

Aligning and lapping of new rings should become the standard practice whenever a scope is installed on a quality firearm. The alignment bars in this kit provide for perfect alignment of both rings and will also diagnose any misalignment problem, vertical or horizontal, giving you the opportunity to fix the problem before damaging the scope or experiencing frustration at the range.

# Wheeler Scope Ring Alignment and Lapping Kit Safety Instructions

## Introduction

Thank you for choosing the Wheeler Scope Ring Alignment and Lapping Kit. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow these instructions carefully to avoid any hazards and to enhance your experience while using this kit.

## General Safety Guidelines

- Always use this product in accordance with the manufacturer's instructions.
- Ensure that the product is kept out of reach of children and vulnerable individuals.
- Inspect the kit for any damage or wear before use. Do not use if any components are damaged.
- Be aware of your surroundings when using this product to prevent accidents.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Use the alignment bars only for their intended purpose of aligning and lapping scope rings.
- Ensure that the firearm is unloaded and pointed in a safe direction before starting any work.
- Wear appropriate safety gear, such as safety glasses, to protect your eyes from debris.
- Avoid working in wet or damp conditions to prevent slipping and ensure proper handling.
- Do not force any components together; if they do not fit, check for misalignment or damage.
- Keep your work area clear of unnecessary tools and materials to avoid accidents.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and materials before starting.
- Ensure your workspace is clean and welllit.

### 2. Aligning Scope Rings

- Place the alignment bars in the scope rings as per the instructions in the kit.
- Adjust the rings to achieve the desired alignment. Check for vertical and horizontal alignment.

### 3. Lapping Scope Rings

- Apply a small amount of lapping compound to the inside of the rings.
- Insert the appropriate lapping tool and rotate it gently to lap the rings. Ensure even pressure is applied.
- Periodically check the progress to ensure proper lapping.

### 4. Final Checks

- Once alignment and lapping are complete, remove the alignment bars and clean any excess compound from the rings.
- Reinstall the scope and doublecheck the alignment before taking the firearm to the range.

## Disposal Instructions

- Dispose of any unused or excess lapping compound according to local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the product in household waste. Follow local guidelines for disposal of nonfood products.

## Contact Information for Further Support

For any safety inquiries or additional support, please refer to the product packaging or visit the manufacturer's website for contact details.

By following these instructions, you can ensure the safe use of the Wheeler Scope Ring Alignment and Lapping Kit. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Enjoy your experience!
