

Binocular Tripod Adapter

[Optics & Mounting](#) > [Binoculars & Accessories](#) > [Binocular Accessories](#)

Will you be glassing or watching wildlife for long hours? Simply use the Vortex tripod adapter to lift the weight of binoculars off your arms and onto the steady support of a tripod. Using a rock-steady tripod mount will allow you to spot small details you'd otherwise miss. Quick and easy attachment.

- 1/4 inch threading at the top attaches to any tripod-adaptable binoculars.
- 1/4 inch x 20 standard threading on the base fits directly onto most any tripod and car window mounts.

VORTEX OPTICS Binocular Tripod Adapter Safety Instruction Guide

Introduction

Thank you for choosing the VORTEX OPTICS Binocular Tripod Adapter. This product is designed to enhance your outdoor experience by providing a stable platform for your binoculars, allowing you to observe wildlife and scenery with ease. This safety instruction guide provides essential information to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a binocular tripod adapter.
- Inspect the adapter before each use for any signs of damage or wear. Do not use if damaged.
- Keep the adapter out of reach of children to prevent accidental injury.
- Follow all instructions for installation and usage to avoid hazards associated with improper use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the adapter only with binoculars that are compatible with a 1/4 inch threading.
- Always ensure that the tripod is stable and securely positioned before mounting the binoculars.
- Avoid using the adapter in extreme weather conditions, such as high winds or heavy rain, which may affect stability.
- Do not exceed the weight limit of your tripod when using the adapter.
- Avoid placing the tripod adapter or mounted binoculars near the edge of tables or other elevated surfaces to prevent falls.

Instructions for Installation and Usage

1. Installation

- Locate the 1/4 inch threading at the top of the VORTEX OPTICS Binocular Tripod Adapter.
- Attach the binoculars to the adapter by screwing the binoculars onto the threading until secure.
- Ensure that the connection is tight to prevent any movement.

2. Mounting on a Tripod

- Identify the 1/4 inch x 20 standard threading on the base of the adapter.
- Align the adapter with the tripod mount and screw it onto the tripod until secure.
- Ensure that the tripod is stable and properly set up before use.

3. Using the Adapter

- Once the binoculars are mounted securely on the tripod, adjust the height and angle of the tripod to your preference.
- Use the binoculars as intended, taking advantage of the stability provided by the tripod.
- If you notice any wobbling or instability, check all connections and the tripod's stability before continuing to use the binoculars.

Disposal Instructions

- Dispose of the product according to local regulations for electronic waste and materials.
- Do not dispose of the product in regular household waste.
- Check with local authorities or waste management facilities for proper disposal methods.

Contact Information for Further Support
