Literally indestructible

The weapon cases from Explorer Cases each have corrosion proof metal hinges with lid stay features, which fixate the cover and hold it into place when opened. So you can rest assured that your weapon cases will assist you a long long time.

Thanks to the locking latches the weapon cases are always highly secured. The O-ring gasket also makes them water resistant to a great extend.

Every weapon case is equipped with a manual air pressure release valve. Therefore you can take it easy and will have no problem handling and closing the case.

Exactly how you want it

The cases are provided with internal cutouts for optional internal brackets or mounting rings, so you can store everything exactly as it is most suitable for your requirements.

Every single suitcase comes with a waterproof removable label with which you can label your equipment or store your data.

The case can either be transported traditionally via the large front handle or via optional shoulder straps, which can be easily attached to any model.

The 3005 series is optimized for the transportation by airplane.

Safety Instruction Guide for Explorer Cases 3005 Black

Introduction

Thank you for choosing the Explorer Cases 3005 Black. This guide provides essential safety instructions to ensure the safe use and handling of your case. Please read this document carefully to understand how to properly use, maintain, and dispose of your product while adhering to the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the case is used solely for its intended purpose, which is to store and transport weapons safely.
- Always check the case for any signs of damage before use. Do not use the case if it is damaged.
- Keep the case out of reach of children and vulnerable individuals to prevent accidents.
- Follow all local laws and regulations regarding the storage and transportation of weapons.
- Regularly inspect the locking latches and hinges to ensure they are functioning correctly.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Corrosion Proof Metal Hinges:** Ensure that the hinges are functioning properly before each use. Avoid forcing the lid open if it feels stuck.
- **Locking Latches:** Always secure the case with the locking latches when not in use. This prevents unauthorized access and enhances safety.
- **Water Resistance:** Although the case features a waterresistant Oring gasket, do not submerge the case in water. Avoid exposure to excessive moisture.
- **Air Pressure Release Valve:** Before opening the case at high altitudes, ensure the air pressure release valve is functioning to avoid sudden pressure changes.
- **Internal Cutouts:** Use the internal cutouts for brackets or mounting rings as intended to prevent damage to your equipment and ensure safe transport.

Instructions for Installation and Usage

1. Transporting the Case:

- Use the large front handle for traditional carrying.
- If using shoulder straps, attach them securely to the designated attachment points before use.

2. Storing Equipment:

- Place your equipment inside the case according to your specific needs, utilizing the internal cutouts for optimal organization.
- Ensure that all items are secured and cannot move during transport.

3. Locking the Case:

- Close the lid firmly and engage the locking latches to secure the case.
- Check that the case is locked by gently pulling on the lid to ensure it does not open.

4. Opening the Case:

- If the case has been exposed to changes in altitude, open the air pressure release valve before attempting to open the lid.
- Carefully unlock the latches and lift the lid. Ensure that the hinges are functioning properly.

5. Labeling:

- Use the waterproof removable label to identify your equipment or store important data.
- Ensure that the label is securely attached and legible.

Disposal Instructions

- Dispose of the case in accordance with local regulations regarding plastic waste.
- If the case is no longer usable, consider recycling the polypropylene material if facilities are available in your area.
- Do not dispose of the case in regular household waste if it contains hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the safety or usage of the Explorer Cases 3005 Black, please refer to the manufacturer's contact information provided with your product. Always ensure you have the latest information regarding product recalls or safety updates by checking the EU's Safety Gate platform.

Thank you for your attention to these safety instructions. Your careful handling and adherence to these guidelines will help ensure the longevity and safe use of your Explorer Cases 3005 Black.
