Literally indestructible

The weapon cases from Explorer Cases each have corrosion proof metal hinges with lid stay features, which fixate the cover and hold it into place when opened. So you can rest assured that your weapon cases will assist you a long long time.

Thanks to the locking latches the weapon cases are always highly secured. The O-ring gasket also makes them water resistant to a great extend.

Every weapon case is equipped with a manual air pressure release valve. Therefore you can take it easy and will have no problem handling and closing the case.

Exactly how you want it

The cases are provided with internal cutouts for optional internal brackets or mounting rings, so you can store everything exactly as it is most suitable for your requirements.

Every single suitcase comes with a waterproof removable label with which you can label your equipment or store your data.

The case can either be transported traditionally via the large front handle or via optional shoulder straps, which can be easily attached to any model.

The 3005 series is optimized for the transportation by airplane.

Safety Instruction Guide for the 3005 mil. green EXPLORER CASES

Introduction

Thank you for choosing the 3005 mil. green EXPLORER CASES. This weapon case is designed to provide the highest level of protection for your firearms and equipment. To ensure safe use and compliance with the EU General Product Safety Regulation (GPSR), please read this safety instruction guide carefully.

General Safety Guidelines

- **Product Safety:** This product is designed to ensure safe use and comply with all applicable safety standards. Always use the product as intended.
- **Enhanced Recalls:** In the event of a safety concern, recall notices will be provided. Please pay attention to these notices and follow instructions for returning or disposing of the product.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements. Verify that the product meets all safety standards.
- **Special Consumer Focus:** Extra care should be taken when using this product around children or vulnerable individuals. Store the case and its contents out of their reach.
- **EU Contact Point:** For any safety inquiries, please refer to the manufacturer's contact information provided with the product.
- **Rapid Alerts:** Stay informed about any safety updates regarding this product by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Handling:** Always handle the case with care. Avoid dropping or subjecting it to extreme force.
- **Transporting Firearms:** Ensure that firearms are unloaded and secured within the case before transportation.
- **Locking Mechanisms:** Always ensure that the locking latches are securely fastened when the case is closed to prevent accidental opening.
- **Water Resistance:** While the case is designed to be waterresistant, do not submerge it in water. Always check seals for integrity before exposure to moisture.
- **Air Pressure Release:** Use the manual air pressure release valve when closing the case after transporting it by air to avoid pressure buildup.
- **Internal Cutouts:** Utilize the internal cutouts for brackets or rings to secure your items properly. This helps prevent movement during transport.

Instructions for Installation and Usage

1. Initial Setup:

- Open the case and inspect it for any visible damage or defects.
- Ensure that the internal inlay is properly fitted and secure.

2. Loading the Case:

- Place your firearm and accessories inside the case, ensuring they are properly cushioned and secured.
- Use the provided waterproof removable label to mark your equipment for easy identification.

3. Closing the Case:

- After loading, close the lid carefully.
- Engage all locking latches to secure the case.

4. **Transporting the Case:**

- Use the large front handle for traditional transport.
- If preferred, attach optional shoulder straps for easier carrying.

5. **Air Travel:**

- When flying, ensure the case is compliant with airline regulations for transporting firearms.
- Use the air pressure release valve before closing the case to prevent pressure buildup during flight.

Disposal Instructions

- **End of Life:** When the case is no longer usable, dispose of it responsibly.
- **Recycling:** Check local regulations for recycling options for polypropylene materials.
- **Hazardous Waste:** If the case has been damaged in a way that could pose a risk, contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any additional questions or concerns regarding the safety and use of the 3005 mil. green EXPLORER CASES, please refer to the manufacturer's contact information provided with the product.

Thank you for your attention to these safety instructions. Enjoy using your EXPLORER CASES responsibly and safely.
