The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

Introduction

Thank you for choosing the MDT ACC Chassis System Kit for your CZ 455 or 457 rifle. This guide provides important safety information, usage instructions, and disposal guidelines to ensure a safe and enjoyable experience with your product. Please read this manual carefully before using the chassis system.

General Safety Guidelines

- Ensure that the product is intended for use with the specified CZ 455 or 457 models.
- Always follow local laws and regulations regarding firearm use and modifications.
- Keep the chassis system and all related accessories out of reach of children and unauthorized users.
- Regularly inspect the chassis system for any signs of wear or damage.
- Do not use the chassis system if you notice any defects or malfunctions.
- Always handle firearms responsibly and safely.

Specific Safety Precautions for Use

- Be aware of your surroundings and ensure a safe shooting environment.
- Always point the firearm in a safe direction when handling.
- Use only compatible accessories with the MDT ACC Chassis System to avoid malfunctions.
- Ensure that all weights are securely attached before using the chassis system.
- Avoid overloading the chassis system beyond its recommended weight limits.
- Use appropriate safety gear, including eye and ear protection, while shooting.
- Follow the manufacturer's guidelines for the installation and adjustment of the chassis system.

Instructions for Installation and Usage

1. Unpacking the Chassis System:

- Carefully remove the chassis system from the packaging.
- Inspect all components for any damage or missing parts.

2. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing stock from the rifle, following the manufacturer's instructions.
- Attach the MDT ACC Chassis System to the rifle action using the provided hardware.
- Make sure all screws are tightened securely to prevent movement during use.

3. Adjusting Weight and Balance:

- Determine the desired weight and balance for your shooting style.
- Add or remove weights from the buttstock, interior forend, or exterior forend as needed.
- Ensure that all weights are securely fastened.

4. Using the Chassis System:

- Before shooting, doublecheck that the chassis system is properly installed and adjusted.
- Use the MDT Elite Grip for improved handling and control.
- Familiarize yourself with the features and adjustments of the chassis system before use.

5. **PostUse Care:**

- Clean the chassis system and inspect for any wear or damage after each use.
- Store the chassis system in a dry, cool place when not in use.

Disposal Instructions

- When disposing of the MDT ACC Chassis System, follow local regulations regarding the disposal of aluminum and other materials.
- Do not dispose of the product in regular household waste.
- Consider recycling the materials if possible.
