The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

MDT ACC Chassis System Kit Safety Instructions

Introduction

Thank you for choosing the MDT ACC Chassis System Kit for your Tikka T3, T3x, T1x rifle. This guide provides essential safety instructions to ensure the safe use and maintenance of your chassis system. Please read this guide carefully before installation and usage to maximize safety and performance.

General Safety Guidelines

- Always ensure that the rifle is unloaded before handling or installing the chassis system.
- Keep the chassis system and all accessories out of reach of children and unauthorized users.
- Regularly inspect the chassis for any signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearms and accessories.
- Be aware of the weight of the fully assembled rifle and ensure you can safely handle it.
- Always use appropriate personal protective equipment (PPE) when handling or shooting your rifle.

Specific Safety Precautions for Use

- Ensure that all weights are securely attached before use to prevent them from falling off during operation.
- Do not exceed the maximum weight limit of 5.6 kg for the chassis alone. Total weight with accessories should not exceed 1214 kg.
- Only use AICS style magazines compatible with the chassis system. Ensure they are properly seated before use.
- When adjusting the weights, follow the manufacturer's instructions to ensure proper balance and stability.
- If using the rifle in a competition or public area, be mindful of your surroundings and ensure the rifle is pointed in a safe direction at all times.

Instructions for Installation and Usage

1. Installation of the Chassis:

- Ensure the rifle is unloaded and the safety is engaged.
- Remove the original stock from the rifle following the manufacturer's instructions.
- Align the rifle action with the MDT ACC Chassis and secure it using the provided screws.
- Confirm that the action is firmly seated and that there is no movement.

2. Adjusting Weights:

- Identify the weight compartments on the buttstock and forend.
- Select the desired weights and insert them into the appropriate compartments.
- Secure the weights in place using the retention screws provided.

3. Using the MDT Elite Grip:

- Ensure the grip is securely attached to the chassis.
- Adjust the grip angle, if applicable, to suit your shooting style.

4. Compatibility Check:

- Verify that your AICS style magazine fits correctly in the chassis.
- Test the magazine release mechanism to ensure proper function.

5. Regular Maintenance:

- Clean the chassis system regularly to prevent buildup of dirt and debris.
- Inspect all components for wear and tear before each use.
- Store the chassis in a cool, dry place when not in use to prevent corrosion.

Disposal Instructions

- Dispose of the chassis system and any accessories in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling programs for aluminum materials.
- Ensure that any hazardous materials are handled according to local environmental guidelines.

Contact Information for Further Support

For any inquiries or concerns regarding the MDT ACC Chassis System Kit, please refer to the manufacturer's website or customer service. It is essential to have access to support for any safety-related questions or product issues.
