

# Picatinny Rail - MDT Accessories - Rails - Picatinny Rail - 2.5" - BLK

[Rifle Parts](#) > [Forend & Handguard Parts](#) > [Handguard & Rail Accessories](#) > [Accessory Rails](#)

MDT's Picatinny rails are designed to be a reliable addition to our chassis systems when installing various accessories on your bolt action rifle. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. These rails come in 3 different lengths and feature an integral QD flush cup sling mount on the 2 longer sizes. Screw spacing is 1.6" center to center (common with other reputable rail brands). 10/24 flat head screws in  $\frac{3}{8}$ " and  $\frac{5}{8}$ " length and 10/24 weld nuts for installation on AR15 style handguards included.

# MDT Picatinny Rail Safety Instruction Guide

## Introduction

Thank you for choosing the MDT Picatinny Rail. This guide provides important safety information, installation instructions, and usage guidelines to ensure the safe and effective use of this product. Please read this manual carefully before use.

## General Safety Guidelines

- Always ensure that the MDT Picatinny Rail is compatible with your specific chassis system and accessories.
- Inspect the rail for any damage or defects before installation. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearms and accessories.
- Keep the product out of reach of children and unauthorized users.
- In case of any malfunction or safety concern, cease use immediately and consult a qualified professional.

## Specific Safety Precautions for Use

- Ensure that all accessories mounted on the Picatinny Rail are securely fastened.
- Avoid overtightening screws, as this may damage the rail or the chassis.
- When using the QD flush cup sling mount, ensure it is properly engaged before applying any load.
- Do not exceed the weight limit specified by the manufacturer for mounted accessories.
- Regularly check the tightness of screws and the integrity of the rail after use.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools, including a screwdriver compatible with 10/24 flat head screws.
- Ensure you have the appropriate screws (3/8" and 5/8" lengths) and weld nuts for installation.

### 2. Installation

- Position the MDT Picatinny Rail on the desired location of your chassis system.
- Align the rail with the mounting holes of the chassis.
- Insert the 10/24 weld nuts into the chassis if applicable.
- Use the 10/24 flat head screws to secure the rail.
- Tighten screws to a snug fit, avoiding overtightening.
- Ensure that the rail is firmly attached and does not move.

### 3. Usage

- Once installed, you can attach various accessories to the rail as needed.
- Always check that accessories are securely attached before use.
- If using the QD flush cup sling mount, ensure that the sling is properly attached and secured.

## Disposal Instructions

- Dispose of the MDT Picatinny Rail in accordance with local regulations.
- Do not dispose of the product in household waste.
- Recycle materials when possible, ensuring that all components are disposed of properly.

## **Contact Information for Further Support**

For any questions or concerns regarding the MDT Picatinny Rail, please contact the manufacturer's customer service team or refer to the product website for additional resources.

Thank you for your attention to these safety instructions. Enjoy your MDT Picatinny Rail and use it responsibly!
