

Premier Scope Rings, 30 mm tube diameter - MDT Accessories - Scope Rings - Premier - 30mm - High (1.25in) - BLK

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Scope Rings](#)

The MDT Premier Scope Rings offer a solid mounting system for your optics. Made from precision machined aluminium, these rings are available for the majority of scope sizes and required heights. CMM checked to 1.5 millionths of an inch precision. MDT Premier Scope Rings are designed and manufactured to STANAG 4694 specification, also known as "NATO spec". This means the scope ring sits tight to the top of the scope base rail, with pressure being applied to the underside of the angled rail surfaces to maintain a solid interface. This design also allows mounting on out-of-spec rails.

MDT Premier Scope Rings Safety Instructions

Introduction

Thank you for choosing the MDT Premier Scope Rings. These scope rings are designed for secure mounting of your optics, ensuring a solid interface for optimal performance. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

General Safety Guidelines

- Ensure that the scope rings are compatible with your specific scope and rail system before installation.
- Inspect the scope rings for any damage or defects before use.
- Always follow the manufacturer's instructions for mounting and usage.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe product incidents to the relevant authorities.

Specific Safety Precautions for Use

- Use only the recommended tools for installation to avoid damaging the scope rings or your equipment.
- Do not exceed the manufacturer's weight limit for the mounted optics.
- Avoid exposure to extreme temperatures and harsh chemicals, as they may affect the integrity of the aluminum material.
- Ensure that the scope is securely mounted before use to prevent accidents during operation.
- Regularly check the tightness of the scope rings to maintain a secure fit.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure the mounting surface is clean and free from debris.

2. Installation:

- Align the scope rings on the scope base rail according to the manufacturer's specifications.
- Place the scope into the rings, ensuring it is level and properly positioned.
- Tighten the screws gradually using a torque wrench, following the recommended torque settings provided by the manufacturer.

3. Usage:

- After installation, conduct a thorough check to ensure that the scope is securely mounted and aligned.
- Before each use, verify that all screws are tightened to the appropriate torque specifications.
- Use the scope rings only for their intended purpose; do not modify or alter the product.

Disposal Instructions

- Dispose of the MDT Premier Scope Rings in accordance with local regulations.
- Recycle the aluminum material if possible, following your local recycling guidelines.

Contact Information for Further Support

For further inquiries regarding the safety and usage of the MDT Premier Scope Rings, please contact the manufacturer or your local retailer.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your experience with the MDT Premier Scope Rings!
