The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

MDT ACC Chassis System Kit Safety Instruction Guide

Introduction

Thank you for choosing the MDT ACC Chassis System Kit for your Remington 700. This guide provides essential safety instructions to ensure the safe use and handling of your chassis system. Please read this manual carefully before installation and use.

General Safety Guidelines

- Always handle firearms responsibly and in accordance with local laws and regulations.
- Ensure that the chassis system is compatible with your specific model of Remington 700.
- Inspect the chassis system for any visible damage or defects before installation.
- Keep the chassis system out of reach of children and unauthorized users.
- Do not modify the chassis system in any way that could compromise its safety or performance.
- Always wear appropriate eye and ear protection when using firearms.
- Be aware of your surroundings and ensure a safe shooting environment.

Specific Safety Precautions for Use

- **Weight Management:** The chassis system allows for weight adjustments. Ensure that any added weights are securely fastened to prevent them from coming loose during use.
- **Accessory Attachment:** When attaching accessories to the ARCA/RRS dovetail, ensure that they are properly secured with the retention screw to prevent accidental detachment.
- **Magazine Compatibility:** Use only AICS style magazines that are compatible with the Remington 700 LA. Check that the magazine is properly seated before use.
- **Installation of Weights:** Follow the manufacturer's instructions when adding interior forend weights, exterior MLoc weights, or buttstock weights. Improper installation may affect the balance and handling of the rifle.
- **Shooting Position:** Ensure that you are in a stable shooting position when using the rifle to maintain control and prevent accidents.

Instructions for Installation and Usage

1. Installation of the Chassis System:

- Carefully remove the existing stock from your Remington 700.
- Align the action of the rifle with the MDT ACC Chassis System.
- Secure the action in place using the provided hardware, ensuring all screws are tightened to the manufacturer's specifications.

2. Adjusting Weight:

- To adjust the weight, locate the designated areas on the chassis system for adding weights.
- Select the appropriate weights and securely attach them to the buttstock, interior forend, or exterior forend as needed.
- Test the balance of the rifle after adjustments to ensure it meets your personal preferences.

3. Attaching Accessories:

- Attach any accessories to the 17" ARCA/RRS dovetail.
- Use the retention screw to secure the accessories in place.

4. Using the Rifle:

- Before firing, perform a final check to ensure that all components are secure.
- Follow standard firearm safety protocols when handling and shooting.

Disposal Instructions

- Dispose of the chassis system and any associated components in accordance with local regulations.
- Do not dispose of the chassis system in regular household waste. Instead, take it to a designated recycling center or hazardous waste facility if applicable.
- Remove any weights and accessories before disposal.
