The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. Its original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

# MDT ACC Chassis System Kit Safety Instructions

## Introduction

Thank you for choosing the MDT ACC Chassis System Kit for your Tikka T3, T3x, and T1x rifles. This guide provides essential safety instructions to ensure the safe and effective use of your chassis system. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always handle firearms responsibly and in a safe manner.
- Keep the product out of reach of children and unauthorized users.
- Inspect the chassis system regularly for any signs of wear or damage.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recalls and safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always ensure the rifle is unloaded before installing or adjusting the chassis system.
- Use only compatible accessories and components as specified by the manufacturer.
- Do not exceed the maximum weight limit of 5.6 kg for the chassis alone.
- Ensure that all weights are securely installed to prevent them from falling off during use.
- Use the retention screw on the ARCA/RRS dovetail to secure accessories firmly.
- Be cautious when adjusting the weights; ensure that adjustments do not compromise the stability or balance of the rifle.
- Always wear appropriate safety gear when handling firearms.

## Instructions for Installation and Usage

### 1. Unboxing and Inspection

- Carefully unpack the MDT ACC Chassis System Kit.
- Inspect all components for any signs of damage or defects.

### 2. Installation

- Ensure the rifle is unloaded before proceeding.
- Remove the existing stock from your Tikka rifle.
- Attach the MDT ACC Chassis to the action of the rifle, ensuring a snug fit.
- Secure the chassis using the provided screws and tools, following the manufacturer's specifications.

### 3. Weight Adjustment

- Identify the areas where weights can be added: buttstock, interior forend, and exterior forend.
- Select the appropriate weights based on your desired balance and weight distribution.
- Install the weights by following the manufacturer's guidelines, ensuring they are securely fastened.

### 4. Accessory Installation

- Use the 17" ARCA/RRS dovetail for attaching accessories.
- Tighten the retention screw to prevent accessories from falling off during use.

### 5. Final Checks

- Verify that all components are securely attached and that the rifle is balanced as desired.
- Conduct a function check to ensure the rifle operates correctly with the new chassis system.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding electronic and metal waste.
- Do not dispose of the chassis system in regular household waste.
- Contact local waste management authorities for information on proper disposal methods.
