

FULL LENGTH DIES FOR RIFLE CALIBERS - TRIEBEL Full Length Die 416 Barrett - 1 1/2"

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length.

In addition to a removable expander our FL dies have an integrated primer ejector pin.

All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut.br>

Specs:

- Thread: 1 1/2"
- Expander (diameter): 10.52mm

All relevant components have an article number for easy reordering if necessary.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

TRIEBEL Full Length Dies for Rifle Calibers Safety Instructions

Introduction

Thank you for choosing the TRIEBEL Full Length Die for 416 Barrett. This product is designed to offer precision and reliability when resizing cartridge cases. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the die is used in accordance with the manufacturer's specifications.
- Keep the die and all associated components out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Regularly inspect the die for wear and damage. Do not use if any parts are worn out or damaged.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.

Specific Safety Precautions for Use

- Before using the die, ensure that your reloading press is securely mounted and in good working condition.
- When resizing cases, always keep hands and body clear of the die to avoid injury.
- Use only compatible cartridge cases with the TRIEBEL Full Length Die to avoid malfunction or accidents.
- Do not exceed the recommended pressure limits for your reloading setup.
- Never attempt to modify or repair the die while it is in use.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is turned off and is not in use.
- Remove any existing dies from the press.
- Clean the threads of the press and the die to ensure a proper fit.
- Screw the TRIEBEL Full Length Die into the press until it is securely in place.
- Adjust the die to the desired position using the lock nut.

2. Usage:

- Prepare your cartridge cases by cleaning them thoroughly.
- Insert the cartridge case into the die.
- Operate the press to resize the cartridge case fully.
- Check the neck tension of the case after resizing to ensure it meets specifications.
- Remove the resized case from the die and inspect for any defects.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of the die in household waste. Instead, check for local recycling programs that accept metal products.
- Ensure that all components, including packaging, are disposed of responsibly.

Contact Information for Further Support

For any questions or concerns regarding the TRIEBEL Full Length Die for 416 Barrett, please refer to the manual or contact your retailer for assistance.

Additional Notes

- All relevant components of the TRIEBEL Full Length Die have an article number for easy reordering if necessary.
- Please refer to the manual for further instructions and assistance in selecting accessories and spare parts.

By following these safety instructions, you can ensure a safe and effective reloading process. Thank you for your attention to these guidelines.
