

SEATER WITH CRIMP FOR RIFLE CALIBERS - TRIEBEL Seater with Crimp 8.5x55 Blaser - 1 1/4"

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

Specs:

- Thread: 1 1/4"

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for TRIEBEL Seater with Crimp for Rifle Calibers

Introduction

Thank you for choosing the TRIEBEL Seater with Crimp for Rifle Calibers. This product is designed to enhance your reloading experience by providing precise bullet seating and crimping capabilities. To ensure your safety and the optimal performance of the product, please read and follow the instructions in this guide carefully.

General Safety Guidelines

- Always handle reloading equipment and components with care.
- Ensure that you are in a wellventilated area when using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear and damage before use.
- Follow all local laws and regulations regarding reloading and firearm usage.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use only the recommended cartridge specifications (8.5 x 55 mm Blaser) for this seater.
- Wear safety glasses and appropriate protective gear when operating this product.
- Ensure that the seaterhead is securely attached before use.
- Do not exceed the recommended load limits when reloading cartridges.
- Avoid using damaged or worn components, as they may pose safety risks.
- Always keep your workspace clean and organized to prevent accidents.

Instructions for Installation and Usage

1. Installation of the Seaterhead:

- Ensure the seater is disconnected from any power source.
- Remove the existing seaterhead by unscrewing it from the main body.
- Select the appropriate seaterhead for the bullet you are using.
- Attach the new seaterhead by screwing it securely into place.

2. Using the Bullet Seater:

- Place the cartridge case in the die and ensure it is properly aligned.
- Insert the bullet into the cartridge case.
- Slowly lower the ram to seat the bullet into the case.
- If crimping is desired, adjust the die to apply the crimp to the mouth of the cartridge case.
- Inspect the completed cartridge for proper seating and crimping.

3. Maintenance:

- Clean the seater regularly to prevent residue buildup.
- Store the seater in a dry, cool place when not in use.
- Check the threads and connections periodically for signs of wear.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of reloading materials in regular household waste.
- Contact your local waste management facility for guidance on the proper disposal of reloading components.

Contact Information for Further Support

For any questions or concerns regarding the TRIEBEL Seater with Crimp, please refer to the product manual or contact the manufacturer directly. Ensure that you have the product details and any relevant information ready for a quicker response.

By following these safety instructions, you can ensure a safe and effective reloading experience with your TRIEBEL Seater with Crimp for Rifle Calibers. Thank you for your attention to safety!
