

DeathGrip Sherpa Carbon Fiber Backcountry Tripod

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

A close cousin to the DeathGrip Infinite series, the DeathGrip Sherpa is the ultimate backcountry tripod. Designed as a multi-functional tripod platform, the DeathGrip Sherpa weighs just over 4 lbs and utilizes a quick-change system on top of a glass-smooth ball head mount, making it perfect for glassing and shooting on the side of a mountain. Couple this with a proprietary hybrid foot, twist-lock legs, the proprietary DeathGrip clamping system, and a removable center post, and the DeathGrip Sherpa provides the most versatile backcountry capability at a fraction of the price of its competitors.

BOG DeathGrip Sherpa Carbon Fiber Backcountry Tripod Safety Instructions

Introduction

Thank you for choosing the BOG DeathGrip Sherpa Carbon Fiber Backcountry Tripod. This guide provides essential safety instructions to ensure safe and effective use of your tripod. Please read this manual carefully before using the product.

General Safety Guidelines

- Always inspect the tripod for any damage or defects before each use.
- Ensure that the tripod is set up on stable and level ground to prevent tipping.
- Do not exceed the maximum weight limit specified by the manufacturer.
- Avoid using the tripod in extreme weather conditions, such as high winds or heavy rain.
- Keep the tripod away from children and pets when in use or stored.
- Do not modify or alter the tripod in any way, as this can compromise safety.
- Always follow local laws and regulations regarding outdoor equipment.

Specific Safety Precautions for Use

- When using the tripod for shooting or glassing, ensure that it is securely locked in place before use.
- Be cautious when adjusting the height of the tripod; make sure your fingers are clear of any moving parts.
- If using the tripod with a firearm or camera, ensure that all equipment is securely attached before use.
- Use the tripod in a manner that does not obstruct your vision or create a hazard to yourself or others.
- If the tripod becomes unstable during use, immediately cease use and reposition it on stable ground.

Instructions for Installation and Usage

1. Setting Up the Tripod:

- Remove the tripod from its carrying case.
- Extend the legs to the desired height by twisting the leg locks counterclockwise.
- Ensure that all leg locks are securely tightened before use.

2. Attaching Equipment:

- Use the quickchange system to attach your camera or firearm to the ball head mount.
- Ensure that the equipment is locked in place and that the clamping system is secure.

3. Adjusting the Tripod:

- To adjust the angle of the head, loosen the ball head lock, position it as desired, and retighten the lock.
- For height adjustments, twist the leg locks to release, adjust the leg length, and then retighten.

4. Packing Up:

- To disassemble, reverse the setup instructions.
- Ensure all locks are secured before placing the tripod back in its carrying case.

Disposal Instructions

- Dispose of the tripod in accordance with local waste management regulations.
- If the tripod is no longer functional, consider recycling any metal or plastic components where possible.
- Do not dispose of the tripod in regular household waste.

Contact Information for Further Support

For any inquiries or further assistance regarding the BOG DeathGrip Sherpa Carbon Fiber Backcountry Tripod, please contact the manufacturer through the appropriate channels available on their website or product packaging.

By following these safety instructions, you can ensure a safe and enjoyable experience with your BOG DeathGrip Sherpa Carbon Fiber Backcountry Tripod. Thank you for your attention to safety!
