

Debris catcher for Casefeeder for Dillon Super 1050

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

This is a Debris Catcher for Casefeeder for Dillon XL650 XL750.
The Dillon Casefeeder has two holes in the bottom back of the bowl assembly.
These holes allow any accumulated spent powder, polishing media or general crud to drain out of the bowl.

This debris if left unchecked can fall all over your press or bench top.
Most reloaders just tape some kind of cup or even a couple of spent shell casings to the back of the feeder to collect the debris.
This upgrade accomplishes the same thing in a more elegant manner.

ARMANOV Debris Catcher for Casefeeder for Dillon Super 1050 Safety Instructions

Introduction

Thank you for choosing the ARMANOV Debris Catcher for Casefeeder for Dillon Super 1050. This product is designed to enhance your reloading experience by effectively collecting debris that may accumulate during the reloading process. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the Debris Catcher as intended to avoid accidents or injuries.
- Regularly inspect the Debris Catcher for any signs of wear or damage.
- Keep the Debris Catcher out of reach of children and vulnerable individuals.
- Do not modify the Debris Catcher in any way, as this may compromise safety and functionality.
- If you encounter any issues or have concerns regarding the product, seek assistance from a qualified professional.

Specific Safety Precautions for Use

- Ensure that the Debris Catcher is securely attached to the Dillon Super 1050 before use.
- Avoid overfilling the Debris Catcher to prevent spillage of collected debris.
- Do not attempt to clean the Debris Catcher while it is attached to the case feeder.
- Handle the Debris Catcher with care to avoid breakage, as it is made from ABS plastic.
- Always wear appropriate personal protective equipment (PPE) when reloading, including safety glasses and gloves.

Instructions for Installation and Usage

Installation

1. **Prepare the Area:** Ensure your reloading station is clean and free from obstructions.
2. **Attach the Debris Catcher:**
 - Locate the two holes at the bottom back of the Dillon Super 1050 case feeder bowl assembly.
 - Align the Debris Catcher with the holes and gently push it into place until it is securely attached.
3. **Inspect the Installation:** Confirm that the Debris Catcher is firmly in position and does not wobble.

Usage

1. **Monitor Debris Accumulation:** Regularly check the Debris Catcher for any accumulated spent powder, polishing media, or other debris.
2. **Empty the Debris Catcher:** When the Debris Catcher is full, carefully remove it from the case feeder and dispose of the contents in accordance with local regulations.
3. **Reattach the Debris Catcher:** After emptying, reattach the Debris Catcher securely to the case feeder before continuing to reload.

Disposal Instructions

- Dispose of the Debris Catcher in accordance with local waste management regulations.
- If the Debris Catcher is damaged beyond repair, ensure it is disposed of in a manner that minimizes environmental impact.
- Recycle the ABS plastic if facilities are available in your area.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to the manufacturer's contact details provided with your product packaging or documentation.

By following these safety instructions, you can ensure a safer and more effective reloading experience with the ARMANOV Debris Catcher for Casefeeder for Dillon Super 1050. Thank you for your attention to safety and for choosing our product.
