

# AR10 - Black AR Diamond Pro

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

## Material Details

1. **Housing:** 7075 Aluminum (annodized)
2. **Key Components:** 440C Stainless Steel
3. PVD stands for Physical Vapour Deposition. It is a hard and durable coating that is applied to external stainless components to give them a clean black color.

## Description

Our AR10 Triggers are built for top competitive shooters to offer the most accurate and dependable trigger on the market. Featuring Frictionless Release Technology™, this drop-in AR trigger has a short, two-stage action, designed to feel like a 1911 trigger, that provides a true zero-creep break, extremely short overtravel, a sub 0.015" tactical reset and offers outstanding reliability, even in the harshest environments. Changing the pull weight does not affect hammer force so you get dependable primer strikes at every weight. Frictionless Release Technology™, along with hardened 440C stainless steel internal components ensure corrosion resistance and an extended service life. As Frictionless Release Technology™ does not rely on coating, polishing or lubricating the key engagement surfaces, trigger pulls will be more consistent from shot to shot and after thousands of shots than you ever thought possible.

## Safety Instruction Guide

### Introduction

Thank you for choosing the TRIGGERTECH AR10 Black AR Diamond Trigger. This safety instruction guide is designed to ensure your safe use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before installation and use.

### General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always follow safe handling practices when using firearms and accessories.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for product recalls and safety updates through the EU's Safety Gate platform.
- Report any unsafe products or accidents to local authorities.

### Specific Safety Precautions for Use

- Use the trigger only with compatible AR .308 firearms.
- Always ensure the firearm is unloaded before installation or maintenance.
- Do not modify the trigger or its components in any way.
- Avoid using the trigger in extreme environmental conditions unless specified.
- Ensure proper training and understanding of firearm safety before use.

### Instructions for Installation and Usage

#### Installation

##### 1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation.

##### 2. Remove the Existing Trigger:

- Follow your firearm's manual to safely remove the existing trigger.

##### 3. Install the TRIGGERTECH AR10:

- Align the TRIGGERTECH AR10 with the trigger housing.
- Securely fasten the trigger according to the firearm's manual instructions.

##### 4. Testing:

- After installation, conduct a function test to ensure the trigger operates correctly without ammunition.

#### Usage

- Familiarize yourself with the trigger's operation, including the short, twostage action.
- Practice proper trigger control and firearm handling techniques.
- Regularly maintain and inspect the trigger for signs of wear or damage.

## **Disposal Instructions**

- Dispose of the trigger and its components in accordance with local regulations for electronic and metal waste.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For any inquiries or support regarding the TRIGGERTECH AR10 Black AR Diamond Trigger, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safer experience with your TRIGGERTECH AR10 Black AR Diamond Trigger. Please keep this guide for future reference and share it with others who may use the product. Thank you for prioritizing safety.
