## **Description**

Our most complex and technologically advanced trigger yet. Developed with the same unmatched zero-creep break, tactile pull weight adjustment (on both stages), rugged design, and no compromise engineering. Our focus on safety led us to develop the first Rem 700 trigger with four points of safety. This is a new level of performance and safety for those who prefer some movement before the wall. Four points of safety:

4. Ticker Blocker - prevents the ticker from moving while on safe.
5. Sear Blocker - prevents the sear from dropping while on safe.
6. First-Stage Lockout - the tumbler locks out the first stage while on safe. The first-stage will not move while on safe, giving the shooter immediate confirmation that the safety is engaged.
7. First-Stage Safety - even when on fire the first-stage blocks the ticker until the first-stage is actuated.

The adjustment feature utilizes externally accessible set screw for both stages. Due to the exceptionally crisp break the activation energy is less than friction-based triggers. Most shooters report the pull weights feeling significantly lighter than a friction-based trigger of the same measured weight. The triggers components are assembled as a matched set to enable a true zero-creep break, extremely short overtravel and offers outstanding reliability, even in the harshest environments. Frictionless Release Technology™, along with hardened 440C stainless steel internal components ensure corrosion resistance and an extended service life. As Frictionless Release Technology™ does not rely on coating, polishing or lubricating the key engagement surfaces, trigger pulls will be more consistent from shot to shot and after thousands of shots more than you ever thought possible.

## **Attributes**

- Name: [TRIGGERTECH Rem700 Special - Two-Stage - Right - No bolt release - Pro Curved \(PVD Black\)](#)
- Manufacturer: [TRIGGERTECH](#)
- Product no.: EU2010034
- Mfr. No.: R70-TCB-13-TNP
- Model: 700
- Style: Adjustable, Curved
- Weapon type: Remington
- Delivery weight: 0.14kg

- Shipping height: 38mm
- Shipping width: 102mm
- Shipping length: 140mm
- UPC: 885768001786

# TRIGGERTECH REM700 SPECIAL TWO STAGE RIGHT NO BOLT RELEASE TRIGGER Safety Instruction Guide

## Introduction

Thank you for choosing the TRIGGERTECH REM700 SPECIAL TWO STAGE RIGHT NO BOLT RELEASE TRIGGER. This guide provides essential safety instructions to ensure the safe and effective use of your trigger. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure the trigger is installed by a qualified gunsmith or experienced individual.
- Always treat firearms and their components as if they are loaded.
- Keep the trigger and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the trigger and firearm for any signs of wear or damage.
- Familiarize yourself with the safety features of the trigger before use.
- Follow all local laws and regulations regarding firearm use and ownership.

## Specific Safety Precautions for Use

- **Safety Features:**
  - **Ticker Blocker:** Prevents the ticker from moving while on safe.
  - **Sear Blocker:** Prevents the sear from dropping while on safe.
  - **FirstStage Lockout:** The tumbler locks out the first stage while on safe, ensuring the firststage will not move.
  - **FirstStage Safety:** Blocks the ticker until the firststage is actuated, even when on fire.
- **Installation Precautions:**
  - Do not modify the trigger in any way that could affect its performance or safety features.
  - Ensure that the trigger is compatible with your Remington 700 model.
- **Usage Precautions:**
  - Always ensure the firearm is pointed in a safe direction when handling.
  - Use the trigger only with the appropriate ammunition for your firearm.
  - Be aware of your surroundings and ensure a clear shooting area before firing.

## Instructions for Installation and Usage

### Installation Instructions

1. **Preparation:**
  - Ensure all tools and components are available before starting the installation.
  - Make sure the firearm is unloaded and pointed in a safe direction.
2. **Remove the Old Trigger:**
  - Follow the manufacturer's instructions for safely removing the existing trigger.
3. **Install the TRIGGERTECH REM700 Trigger:**
  - Align the trigger with the mounting points in the firearm.
  - Securely fasten the trigger using the provided screws and tools.
4. **Adjust the Trigger:**
  - Use the externally accessible set screw to adjust the pull weight for both stages.
5. **Final Inspection:**
  - Check all connections and ensure the trigger operates correctly before use.

## Usage Instructions

- **Engaging the Safety:** Always engage the safety when the firearm is not in use.
- **Shooting:**
  - Ensure you are in a safe position before disengaging the safety.
  - Pull the trigger smoothly to activate the first stage, then apply additional pressure to reach the second stage for firing.
- **PostUse:**
  - Always engage the safety after firing and before handling the firearm.

## Disposal Instructions

- Dispose of the trigger and any associated components in accordance with local regulations.
- Do not dispose of the trigger in regular household waste. Contact local waste management services for proper disposal methods.

## Contact Information for Further Support

For any questions regarding safety, installation, or usage of the TRIGGERTECH REM700 SPECIAL TWO STAGE RIGHT NO BOLT RELEASE TRIGGER, please consult with a qualified gunsmith or contact the manufacturer directly for assistance.

This safety instruction guide is designed to help you use your trigger safely and effectively. Please keep this guide for future reference and ensure that all users of the trigger are familiar with these safety instructions. Thank you for prioritizing safety and responsible firearm use.
