

MEPRO M21 DAY/NIGHT SELF ILLUMINATED SIGHT (MIL SPEC) - MEPRO M21 OPEN X RETICLE WITH PICATINNY ADAPTER

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Self-illuminated and battle-proven reflex sight. Originally developed for the Israel Defense Force (IDF), the Mepro M21 Red Dot Day/Night Self-Illuminated Reflex Sight represents the best of Meprolight® tritium technology and remains on active duty for the IDF and militaries and law enforcement worldwide. A red dot sight with fiber-optic illumination by day, Meprolight® tritium by night, it takes charge of any battlefield with no need for batteries, ever. Its rugged, battle-proven construction meets or exceeds rigorous MIL-STD-810 standards to thrive in the harshest conditions, with five available reticles and a big 30-millimeter lens for maximum situational awareness. Dual illuminated 1X "Red-Dot" reflex sight. The MEPRO M21 provides instant, all-light aiming without batteries. Maintenance FREE! No batteries, No switches always on. Always ready. compatible with carrying handle mount. Tritium and fiber-optic powered that uses ambient light when available during daylight and unique Tritium light source system that ensures bright reticle in low and night light. The transition between the two systems is instantaneous and automatic, ensuring good contrast between the aiming dot and the target area. Tritium luminance is warranted for ten years. Large 30mm diameter lens with five different amber color reticles. MOA or 5.5 MOA dot, Triangle, 4.3 Bullseye, and X. Large field of view for rapid target acquisition. Increases accuracy and speed when firing under pressure. Rugged. Reliable in extreme weather conditions, Used by the Israel Defense Forces, militaries, and law enforcement agencies worldwide. The MEPRO M21 is suitable for Night Vision Goggles or scopes, including those with GEN III tubes and magnifying scopes, such as the Mepro MX3F/T. Easy positioning of Magnifier close to the sight's optics with no decrease in the field-of-view and without compromising convenient switch operation

MEPRO M21 Day/Night Self Illuminated Sight

Safety Instructions

Introduction

Thank you for choosing the MEPRO M21 Day/Night Self Illuminated Sight. This product is designed for use in various conditions and environments, ensuring optimal performance without the need for batteries. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the sight is used only for its intended purpose as described in the product specifications.
- Always handle the sight with care to prevent damage.
- Regularly inspect the sight for any signs of wear or damage before use.
- Do not attempt to disassemble or modify the sight in any way.
- Keep the sight out of reach of children and vulnerable individuals to prevent accidental injuries.
- Be aware of your surroundings when using the sight, especially in crowded or confined spaces.

Specific Safety Precautions for Use

- Ensure that the sight is securely mounted on the firearm before use. A loose sight can cause misalignment and affect accuracy.
- Avoid looking directly at bright light sources through the sight, as this may cause temporary vision impairment.
- Use the sight in accordance with local laws and regulations regarding firearms and accessories.
- When transitioning between day and night use, allow the tritium illumination to adjust naturally to avoid sudden brightness changes that could impair vision.
- If the sight becomes damaged or malfunctions, cease use immediately and contact a qualified technician for inspection and repair.

Instructions for Installation and Usage

Installation

1. Mounting the Sight:

- Ensure the firearm is unloaded and safe before installation.
- Select a suitable Picatinny rail on the firearm for mounting.
- Align the MEPRO M21 sight with the rail and slide it into place.
- Secure the sight using the mounting screws provided, ensuring it is tight but not overtorqued.

2. Adjusting the Reticle:

- Depending on the desired reticle, select the appropriate setting using the adjustment mechanism.
- Ensure the reticle is visible and clearly defined before use.

Usage

• Daytime Use:

- Utilize the fiberoptic illumination for optimal visibility in daylight conditions.
- Ensure the sight is clean and free from obstructions for effective aiming.

- **Nighttime Use:**

- Rely on the tritium illumination for clear targeting in lowlight conditions.
- Allow for natural adjustment of vision when switching from bright to dark environments.

Disposal Instructions

- Dispose of the sight in accordance with local regulations concerning electronic and optical devices.
- Do not dispose of the sight in regular household waste.
- If the sight is damaged and contains tritium, contact local hazardous waste disposal services for proper handling.

Contact Information for Further Support
