

# MEPRO M21 DAY/NIGHT SELF ILLUMINATED SIGHT (MIL SPEC) - MEPRO M21 4.3 BULLSEYE WITH CARRY HANDLE ADAPTER

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

Self-illuminated and battle-proven reflex sight. Originally developed for the Israel Defense Force (IDF), the Mepro M21 Red Dot Day/Night Self-Illuminated Reflex Sight represents the best of Meprolight® tritium technology and remains on active duty for the IDF and militaries and law enforcement worldwide. A red dot sight with fiber-optic illumination by day, Meprolight® tritium by night, it takes charge of any battlefield with no need for batteries, ever. Its rugged, battle-proven construction meets or exceeds rigorous MIL-STD-810 standards to thrive in the harshest conditions, with five available reticles and a big 30-millimeter lens for maximum situational awareness. Dual illuminated 1X "Red-Dot" reflex sight. The MEPRO M21 provides instant, all-light aiming without batteries. Maintenance FREE! No batteries, No switches always on. Always ready. compatible with carrying handle mount. Tritium and fiber-optic powered that uses ambient light when available during daylight and unique Tritium light source system that ensures bright reticle in low and night light. The transition between the two systems is instantaneous and automatic, ensuring good contrast between the aiming dot and the target area. Tritium luminance is warrantied for ten years. Large 30mm diameter lens with five different amber color reticles. MOA or 5.5 MOA dot, Triangle, 4.3 Bullseye, and X. Large field of view for rapid target acquisition. Increases accuracy and speed when firing under pressure. Rugged. Reliable in extreme weather conditions, Used by the Israel Defense Forces, militaries, and law enforcement agencies worldwide. The MEPRO M21 is suitable for Night Vision Goggles or scopes, including those with GEN III tubes and magnifying scopes, such as the Mepro MX3F/T. Easy positioning of Magnifier close to the sight's optics with no decrease in the field-of-view and without compromising convenient switch operation

# MEPRO M21 Day/Night Self Illuminated Sight Safety Instruction Guide

## Introduction

Thank you for choosing the MEPRO M21 Day/Night Self Illuminated Sight. This guide provides essential safety instructions and usage information to ensure a safe and effective experience with your product. It complies with the EU General Product Safety Regulation (GPSR) to ensure your safety and satisfaction.

## General Safety Guidelines

- Always read the instructions carefully before using the product.
- Ensure that the sight is mounted securely on your firearm to prevent accidents.
- Keep the sight out of reach of children and unauthorized users.
- Regularly inspect the sight for any signs of damage or wear.
- Do not use the sight if it appears damaged or malfunctions.
- Store the sight in a cool, dry place when not in use to prevent deterioration.
- Follow local laws and regulations regarding the use of firearm accessories.

## Specific Safety Precautions for Use

- Ensure that the sight is compatible with your firearm and any additional accessories.
- Avoid looking directly at the sun through the sight as it may cause permanent eye damage.
- Use the sight only for its intended purpose; misuse can lead to injury or damage.
- When using the sight in lowlight conditions, ensure that ambient light is available for optimal performance.
- Be aware of your surroundings and ensure that your target area is clear before aiming and firing.
- If using with Night Vision Goggles, ensure compatibility and follow the manufacturer's instructions.

## Instructions for Installation and Usage

### Installation

#### 1. Mounting the Sight:

- Ensure the firearm is unloaded before installation.
- Use the carry handle adapter to attach the sight securely to the firearm.
- Tighten the mounting screws to ensure the sight does not shift during use.

#### 2. Adjusting the Sight:

- Adjust the sight to your preferred reticle setting using the provided controls.
- Ensure the sight is aligned with the barrel of the firearm for accurate aiming.

### Usage

#### • Daylight Use:

- The sight utilizes fiberoptic illumination during the day. Ensure that the fiberoptic element is clean for optimal brightness.

#### • Night Use:

- The sight operates using tritium illumination at night. Ensure that the sight is positioned in a way that allows the tritium to provide adequate visibility.

#### • Switching Between Day and Night:

- The transition between fiberoptic and tritium illumination is automatic. Ensure that the sight is not obstructed for seamless operation.

- **Cleaning and Maintenance:**

- Clean the lens with a soft, lintfree cloth. Avoid using harsh chemicals that may damage the sight.
- Regularly check the tritium luminance; it is warrantied for ten years.

## Disposal Instructions

- Dispose of the sight in accordance with local regulations regarding electronic waste.
- Do not dispose of the sight in regular household waste.
- If the sight is damaged or no longer functional, contact your local waste management authority for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the MEPRO M21 Day/Night Self Illuminated Sight, please refer to the contact information provided in the product packaging or visit the manufacturer's website for further assistance.

This safety instruction guide aims to ensure your safe and effective use of the MEPRO M21 Day/Night Self Illuminated Sight. Please follow all guidelines and precautions to enhance your experience and maintain safety. Thank you for your attention to these important safety measures.
