

# microRDS - RED DOT MICRO SIGHT no Backup sights - microRDS KIT-GLOCK MOS-OPTICS READY

[Optics & Mounting](#) > [Electronic Sights](#) > [Reflex Sights](#)

The quickest, easiest upgrade in the history of accuracy. The Mepro microRDS brings the rapid target acquisition of a full-size red dot rifle optic to a compact pistol sight. Featuring a patented quick-detach (QD) adaptor kit that easily mounts using the pistol's existing rear sight dovetail slot; no drilling, tapping or need for a gunsmith. It's the only red-dot solution that instantly mounts and dismounts without having to re-zero, with an adaptor that also gives you a Meprolight® TruDot™ self-illuminated sight as a back-up when the red dot optic is removed. Built to mount in minutes to any pistol with red dot capability. It also serves as an excellent close-quarters red dot sight and backup sight for rifles and shotguns.

# microRDS Safety Instruction Guide

## Introduction

Thank you for choosing the microRDS RED DOT MICRO SIGHT. This compact pistol sight is designed for rapid target acquisition and enhanced shooting accuracy. It is essential to follow the safety instructions outlined in this guide to ensure safe usage and optimal performance of the product.

## General Safety Guidelines

- Ensure the microRDS is used only on firearms that are compatible with red dot sights.
- Always treat every firearm as if it is loaded.
- Keep the microRDS and all firearms out of reach of children and unauthorized users.
- Regularly inspect the microRDS for any signs of damage or wear before use.
- Do not use the microRDS in adverse weather conditions unless it is specifically rated for such use.
- Report any accidents or unsafe product conditions to the relevant authorities.

## Specific Safety Precautions for Use

- Always check the mounting mechanism before each use to ensure it is securely attached.
- Do not attempt to modify or repair the microRDS yourself. Seek professional assistance for any issues.
- Avoid looking directly into the sight when it is not mounted on a firearm.
- Be aware of your surroundings and ensure a safe shooting environment when using the microRDS.
- Use appropriate eye and ear protection when firing your firearm equipped with the microRDS.
- Do not use the microRDS as a substitute for proper firearm training and safety practices.

## Instructions for Installation and Usage

### Installation Instructions

1. **Prepare Your Pistol:** Ensure your pistol is unloaded and pointed in a safe direction.
2. **Remove the Existing Rear Sight:** Carefully remove the existing rear sight from the dovetail slot.
3. **Attach the microRDS:**
  - Align the microRDS with the dovetail slot.
  - Gently slide the microRDS into place until it is securely fitted.
4. **Check Stability:** Ensure that the microRDS is stable and does not move when gently shaken.
5. **Install Backup Sight:** The microRDS kit includes a Meprolight® TruDot™ selfilluminated sight. Install this as a backup by following the same steps as above if required.

### Usage Instructions

1. **Power On:** Turn on the microRDS by following the manufacturer's instructions.
2. **Adjust Settings:** Adjust brightness settings as needed for optimal visibility.
3. **Zeroing the Sight:** Follow the manufacturer's guidelines to zero the sight to your specific firearm.
4. **Practice Safe Handling:** Always follow firearm safety rules when handling your pistol equipped with the microRDS.

## Disposal Instructions

- Dispose of the microRDS in accordance with local regulations regarding electronic waste.
- Do not dispose of the microRDS in regular household waste.
- If the microRDS is damaged or no longer functional, consider recycling components where possible.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or usage of the microRDS, please refer to the manufacturer's contact details provided with the product packaging or visit the official website.

Thank you for your attention to these safety instructions. Your safety and the safety of others is paramount. Always prioritize safe practices when using the microRDS and firearms.
