MEPROLIGHT® combat-proven self-illuminated night sights enable you to upgrade your capabilities to hit stationary or moving targets under low-light conditions with dramatically increased hit probability. Test results by marksmen and journeymen level shooters have shown an increase of over 85% in hit efficiency, using Meprolight® self-illuminated day/night sights. TRU-DOT® models offer a handgun sighting system for improved rapid instinctive aiming which requires no transition from day to night use. Day and night, the shooter's aiming reference is three solid dots, identical in appearance and location under all light conditions. Designed as replacement parts for the standard weapon sights, Meprolight's Self-Illuminated night sights can be mounted directly with minor modifications. Superior production methods and rigid quality control have made Meprolight® the first choice among law enforcement agencies, defense decision-makers, and major
