[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

MEPROLIGHT® combat-proven self-illuminated night Suppressor sights enable you to upgrade your capabilities to hit stationary or moving targets under low-light conditions with dramatically increased hit probability. Test results by marksmen and journeymen level shooters have shown an increase of over 85% in hit efficiency, using Meprolight® self-illuminated day/night sights. TRU-DOT® models offer a handgun sighting system for improved rapid instinctive aiming which requires no transition from day to night use. Day and night, the shooter's aiming reference is three solid dots, identical in appearance and location under all light conditions. Designed as replacement parts for the standard weapon sights, Meprolight's Self-Illuminated night sights can be mounted directly with minor modifications. Superior production methods and rigid quality control have made Meprolight® the first choice among law enforcement agencies, defense decision-makers, and major weapon manufacturers. A full quality program, certified to ISO-9001:2008 and complying with NATO and US Military Specifications is in place. All products and processes at Meprolight® are performed, controlled, and monitored to these demanding quality levels. Meprolight® leads the world in OEM and after-market self-illuminated sights for handguns. Designed to replace the existing front and rear sights, the highly visible Tru-Dot® sights are perfect for daylight, low-light, and nighttime conditions. Meprolight® is Responding to users' needs, our TRU-DOT® Suppressor is designed to fit suppressor-equipped handguns models and is available in various color combinations of tritium dots on the rear sight (green/orange/yellow for selected models) and green tritium dot on the front sight.

## Safety Instruction Guide

### Introduction

Thank you for choosing the MEPRO Tru Dot SUPPRESSOR HIGHT SIGHTS Tru Dot SUPPRESSOR PISTOL SET for your Glock STD Frame. This guide provides essential safety instructions to ensure the safe use and installation of your new sights. It complies with the EU General Product Safety Regulation (GPSR) and aims to protect consumers while enhancing the overall experience with our product.

### General Safety Guidelines

- **Product Safety:** Ensure safe use of the sights by following all instructions. These sights are designed for use on compatible handgun models only.
- **Enhanced Recalls:** Be aware that in the event of a safety issue, recall notices will be issued, and remedies provided at no cost.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements as outlined by EU regulations.
- **Special Consumer Focus:** These sights are not intended for use by children. Ensure they are kept out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact points provided by the manufacturer.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate platform.

### Specific Safety Precautions for Use

- **Compatibility:** Ensure that the sights are compatible with Glock STD Frame models in 9mm, .357 SIG, .40, and .45 GAP calibers.
- **Installation:** Only install the sights on firearms that are in good working condition. Consult a qualified gunsmith if you are unsure.
- **Handling:** Always treat the firearm as if it is loaded. Keep the muzzle pointed in a safe direction at all times.
- **Visibility:** The TruDot sights are designed for lowlight and nighttime conditions; ensure they are functioning properly before use.
- **Maintenance:** Regularly inspect the sights for damage or wear. Replace them if they show signs of deterioration.
- **Training:** Familiarize yourself with the sighting system and practice using it under various lighting conditions to enhance your shooting accuracy.

### Instructions for Installation and Usage

#### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools for installation, including a sight pusher or appropriate screwdriver.

#### 2. Installation:

- Remove the existing front and rear sights from your Glock STD Frame.
- Align the new Tru Dot sights with the mounting points on the slide.
- Secure the sights using the tools, ensuring they are tightly fitted but not overtorqued to avoid damage.
- Check alignment by looking down the sights to ensure they are straight.

### 3. Usage:

- When aiming, focus on the three solid dots (two rear and one front) to achieve accurate targeting.
- Practice shooting in various lighting conditions to become accustomed to the sighting system.
- Always follow safe shooting practices and local laws regarding firearm use.

## Disposal Instructions

- **Environmental Responsibility:** Dispose of any packaging materials in accordance with local recycling regulations.
- **Old Sights:** If you are replacing old sights, please dispose of them responsibly, following your local waste management guidelines.
- **NonFunctional Sights:** If the sights become nonfunctional, do not attempt to repair them. Dispose of them according to hazardous waste guidelines if applicable.

## Contact Information for Further Support

For any questions or concerns regarding the MEPRO Tru Dot SUPPRESSOR HIGHT SIGHTS, please refer to the manufacturer's website or customer service resources for additional guidance. Always ensure you are following the latest safety regulations and updates.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your enhanced shooting experience with the MEPRO Tru Dot SUPPRESSOR HIGHT SIGHTS!
