[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

MEPROLIGHT® combat-proven self-illuminated night sights enable you to upgrade your capabilities to hit stationary or moving targets under low-light conditions with dramatically increased hit probability. Test results by marksmen and journeymen level shooters have shown an increase of over 85% in hit efficiency, using Meprolight® self-illuminated day/night sights. TRU-DOT® models offer a handgun sighting system for improved rapid instinctive aiming which requires no transition from day to night use. Day and night, the shooter's aiming reference is three solid dots, identical in appearance and location under all light conditions. Designed as replacement parts for the standard weapon sights, Meprolight's Self-Illuminated night sights can be mounted directly with minor modifications. Superior production methods and rigid quality control have made Meprolight® the first choice among law enforcement agencies, defense decision-makers, and major weapon manufacturers. A full quality program, certified to ISO-9001:2008 and complying with NATO and US Military Specifications is in place. All products and processes at Meprolight® are performed, controlled, and monitored to these demanding quality levels. Meprolight® leads the world in OEM and after-market self-illuminated sights for handguns. Designed to replace the existing front and rear sights, the highly visible Tru-Dot® sights are perfect for daylight, low-light, and nighttime conditions. Meprolight® is responding to users' needs, our Mepro Tru-Dot® R4E models are available in various tritium color combinations of green and orange (3 lines on the rear sight and 1 dot on the front sight) with colored white line on the front sight below the dot.

## Safety Instruction Guide

### Introduction

Thank you for choosing the Tru Dot R4E Pistol Set for Glock models. This guide provides essential safety instructions and recommendations to ensure the safe and effective use of your product. Please read this document carefully before using the sights, and keep it for future reference.

### General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or adjusting the sights.
- Use the sights only on compatible Glock models as specified by the manufacturer.
- Regularly inspect the sights for any signs of wear or damage.
- If you notice any defects or malfunctions, discontinue use immediately and consult a qualified gunsmith.
- Keep the product out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding firearm modifications and accessories.

### Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of your firearm and the installation of sights.
- When using the firearm in lowlight conditions, practice aiming with the Tru Dot sights to become accustomed to their functionality.
- Avoid using the sights in environments where they could be exposed to extreme temperatures or moisture that may affect their performance.
- If the sights become dirty or obstructed, clean them gently with a soft, dry cloth. Avoid using solvents or abrasive materials.
- Be aware that the tritium used in the sights is safe when contained but should not be damaged or tampered with.

### Instructions for Installation and Usage

#### Installation

1. **Prepare Your Firearm:** Ensure that your Glock is unloaded and pointed in a safe direction.
2. **Remove Existing Sights:** Use appropriate tools to carefully remove the existing front and rear sights from your Glock.
3. **Install Tru Dot Sights:**
  - Align the front sight with the dovetail slot and press it into place.
  - For the rear sight, ensure it is positioned correctly and press it into the dovetail slot.
  - Make any necessary adjustments to ensure proper alignment.
4. **Secure the Sights:** If applicable, tighten any securing screws to ensure the sights are firmly in place.

#### Usage

- When aiming, align the three dots of the Tru Dot system to achieve rapid instinctive aiming.
- Practice using the sights in various lighting conditions to become proficient in their use.
- Regularly check the alignment and condition of the sights to maintain accuracy.

### Disposal Instructions

- Dispose of the product in accordance with local regulations for electronic waste and hazardous materials.
- Do not dispose of the sights in regular household trash.

- For tritium-containing products, consult local authorities for proper disposal methods to ensure safety.

## Contact Information for Further Support

For any inquiries regarding safety, installation, or usage, please consult your retailer or manufacturer directly. It is important to have access to reliable support for any questions or concerns you may have.

## Conclusion

By following these safety instructions, you can maximize the performance and safety of your Tru Dot R4E Pistol Set. Always prioritize safety when handling firearms and their accessories. Thank you for choosing our product, and we wish you safe and enjoyable shooting experiences.
