[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

MEPROLIGHT® combat-proven self-illuminated night sights enable you to upgrade your capabilities to hit stationary or moving targets under low-light conditions with dramatically increased hit probability. Test results by marksmen and journeymen level shooters have shown an increase of over 85% in hit efficiency, using Meprolight® self-illuminated day/night sights. TRU-DOT® models offer a handgun sighting system for improved rapid instinctive aiming which requires no transition from day to night use. Day and night, the shooter's aiming reference is three solid dots, identical in appearance and location under all light conditions. Designed as replacement parts for the standard weapon sights, Meprolight's Self-Illuminated night sights can be mounted directly with minor modifications. Superior production methods and rigid quality control have made Meprolight® the first choice among law enforcement agencies, defense decision-makers, and major weapon manufacturers. A full quality program, certified to ISO-9001:2008 and complying with NATO and US Military Specifications is in place. All products and processes at Meprolight® are performed, controlled, and monitored to these demanding quality levels. Meprolight® leads the world in OEM and after-market self-illuminated sights for handguns. Designed to replace the existing front and rear sights, the highly visible Tru-Dot® sights are perfect for daylight, low-light, and nighttime conditions. Meprolight® is Responding to users' needs, our Mepro Tru-Dot® R4E models are available in various tritium color combinations of green and orange (3 lines on the rear sight and 1 dot on the front sight) with colored white line on the front sight below the dot.

# Tru Dot R4E PISTOL SET H&K Safety Instruction Guide

## Introduction

Thank you for choosing the Tru Dot R4E PISTOL SET H&K. This guide provides essential safety instructions and information to ensure the safe use of your product. It complies with the EU General Product Safety Regulation (GPSR) to help protect consumers and enhance safety.

## General Safety Guidelines

- Always handle firearms with care and respect.
- Ensure that the firearm is unloaded when installing or adjusting sights.
- Use only compatible firearms as specified in the product description.
- Keep the product and all accessories out of reach of children and unauthorized users.
- Regularly inspect the sights for any signs of wear or damage.
- Follow all local laws and regulations regarding firearms and their accessories.
- Report any unsafe products or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure proper installation of the Tru Dot sights before use.
- Do not modify the sights beyond manufacturer specifications.
- Use the sights only in conditions for which they are designed (daylight, lowlight, and nighttime).
- Avoid using the sights if they are damaged or show signs of malfunction.
- Always wear appropriate eye and ear protection when using firearms.
- Ensure that the firearm is pointed in a safe direction at all times.
- Be aware of your surroundings and ensure a clear line of sight when aiming.

## Instructions for Installation and Usage

### Installation

1. **Gather Tools:** Ensure you have the necessary tools for installation, such as a screwdriver and any specific tools recommended by the manufacturer.
2. **Unload the Firearm:** Always check that the firearm is unloaded before beginning installation.
3. **Remove Existing Sights:** Carefully remove the existing front and rear sights from the firearm.
4. **Align the Tru Dot Sights:** Position the Tru Dot sights in place of the removed sights, ensuring proper alignment.
5. **Secure the Sights:** Use the appropriate screws or fasteners to secure the Tru Dot sights. Ensure they are tightened adequately but avoid overtightening.
6. **Check Alignment:** After installation, check the alignment of the sights to ensure they are properly positioned.
7. **Test Functionality:** Before using the firearm, test the sights to ensure they are functional and correctly installed.

### Usage

- The Tru Dot sights are designed for improved rapid instinctive aiming.
- In daylight, lowlight, and nighttime conditions, the shooter's aiming reference is three solid dots.
- Familiarize yourself with the sighting system to enhance your shooting accuracy.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Ensure that any tritium components are handled properly and disposed of at a facility that can manage hazardous waste.

## **Contact Information for Further Support**
