

Recoil Buffer - AK Recoil Buffer

[Rifle Parts](#) > [Receiver Parts](#) > [Recoil Parts](#) > [Recoil Buffers](#)

The AK-47 recoil buffer is for all Kalashnikov style weapons including AKs, Saiga, Galil, Valmet, Draco pistols and more. This recoil buffer is specifically designed for the recoil spring guide rod and provides outstanding performance and durability.

Using the AK-47 recoil buffer significantly reduces felt recoil, resulting in a more comfortable and controlled shooting experience. Unpleasant bolt strike is effectively minimized as the buffer prevents the bolt from making direct contact with the case. This not only contributes to improved shooting comfort, but also significantly extends the life of your gun.

This buffer is intended to last around 3,000 to 6,000 rounds depending on how over-gassed your rifle is. It is designed to wear out, as only then you will get the full recoil reduction. Therefore, we also offer this product in a 3-pack.

Recoil Buffer AK Safety Instructions

Introduction

Thank you for choosing the Recoil Buffer AK Recoil Buffer. This product is designed to enhance the performance of your Kalashnikovstyle weapons, including AK47s, Saigas, Galils, Valmets, and Draco pistols. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the Recoil Buffer is compatible with your specific firearm.
- Always adhere to the manufacturer's guidelines for your firearm when using the recoil buffer.
- Store the recoil buffer in a dry, cool place away from direct sunlight and extreme temperatures.
- Regularly inspect the recoil buffer for any signs of wear or damage before each use.
- Use proper eye and ear protection when operating firearms equipped with the recoil buffer.
- Keep the product and all firearms out of reach of children and unauthorized users.

Specific Safety Precautions for Use

- Before installation, ensure that the firearm is unloaded and the safety is engaged.
- Do not exceed the recommended round count of 3,000 to 6,000 rounds, as this can lead to decreased performance and potential failure of the recoil buffer.
- Be aware that the recoil buffer is designed to wear out over time. Replace it as needed to maintain optimal performance.
- Avoid using the recoil buffer in excessively overgassed rifles, as this may lead to premature wear.
- If you experience any unusual behavior from your firearm while using the recoil buffer, discontinue use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and the safety is engaged.
- Gather necessary tools, if required, for installation.

2. Installation:

- Remove the existing recoil spring guide rod from your firearm.
- Insert the AK47 recoil buffer onto the recoil spring guide rod according to the manufacturer's instructions.
- Reinstall the recoil spring guide rod with the buffer back into the firearm, ensuring it is seated properly.

3. Usage:

- Test the firearm function with the recoil buffer installed by performing a dry fire (with no ammunition) to ensure proper operation.
- Proceed to use the firearm with live ammunition, monitoring for any signs of malfunction or unusual behavior.

4. PostUse Inspection:

- After use, inspect the recoil buffer for signs of wear or damage.
- Clean the buffer according to the manufacturer's recommendations to maintain its performance.

Disposal Instructions

- Dispose of the recoil buffer in accordance with local regulations regarding plastic waste.
- Do not throw the buffer in regular household waste if local laws prohibit it. Instead, seek out a recycling facility that accepts polymer materials.

Contact Information for Further Support

For any inquiries regarding safety, performance, or concerns about the Recoil Buffer AK Recoil Buffer, please consult the manufacturer's website or customer service for assistance. Always ensure that you have the latest information regarding product recalls and safety updates by checking the EU's Safety Gate platform.

By following these guidelines and instructions, you can ensure a safer and more enjoyable shooting experience with the Recoil Buffer AK Recoil Buffer. Thank you for prioritizing safety and performance.
