

MPO - MEPRO PISTOL OPTICS - MPO S - OPEN EMITTER PISTOL - RMSC/JPOINT

[Optics & Mounting](#) > [Electronic Sights](#) > [Reflex Sights](#)

Time to target matters. The new MPO-S is engineered with a sleek, low-profile design to minimize the risk of snags, ensuring a faster draw and quicker target acquisition.

2.5 years of illumination, and a RMSc/JPoint footprint allowing for direct mounting to your favorite concealed carry handgun, the MPO-S stands as the obvious choice for personal defense.

Selectable 3 segment reticle (3 MOA dot, 33MOA bullseye, and 33 MOA ring) allows you to tailor how you interact with your optic. Your focus remains fixed on the threat, allowing you to stay fully engaged in the situation.

The MPO-S's slim design accommodates a variety of pistols, ensuring comfort during everyday carry. Carry with confidence and equip your pistol with an optic that enhances your speed, elevates your accuracy, and maintains your unwavering focus on the target.

MPOS Pistol Optics Safety Instruction Guide

Introduction

Thank you for choosing the MPOS Pistol Optics. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your optic. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the MPOS is mounted securely to your handgun before use.
- Always handle your firearm with care, following all safety protocols for firearms.
- Store the MPOS in a safe place, away from children and unauthorized users.
- Regularly inspect the optic for any signs of damage or wear.
- Avoid using the optic in extreme weather conditions that may affect its performance.
- Be aware of your surroundings and ensure the area is clear of obstacles when aiming.

Specific Safety Precautions for Use

- **Product Safety:** The MPOS is designed for safe use; however, improper handling or installation can lead to accidents.
- **Age Restrictions:** This product is intended for use by individuals aged 18 and older. Ensure that younger users are supervised by trained adults.
- **Vulnerable Groups:** Extra caution should be taken when this product is used in the presence of children or individuals with limited understanding of firearms.
- **Hazards Identification:** Potential hazards include accidental discharge of the firearm, damage to the optic, and misalignment during installation.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before beginning installation.
- Align the MPOS with the RMSc/JPoint footprint on your handgun.
- Securely fasten the optic using the provided mounting hardware.
- Check that the optic is firmly attached and does not wobble.

2. Usage:

- Adjust the brightness settings according to your environment using the automatic or manual brightness control.
- Select the desired reticle (3 MOA dot, 33 MOA bullseye, or 33 MOA ring) based on your shooting preference.
- Maintain focus on the target while using the optic to enhance accuracy.

3. Maintenance:

- Regularly clean the lens with a soft, lintfree cloth to avoid scratches.
- Check battery status; replace the CR1632 battery when the illumination dims.
- Store the optic in a protective case when not in use.

Disposal Instructions

- Dispose of the MPOS and its components in accordance with local regulations.
- Do not dispose of batteries in regular household waste; follow battery recycling guidelines in your area.

Contact Information for Further Support

For any safety inquiries or additional support regarding the MPOS Pistol Optics, please refer to the official MEPROLIGHT website or contact your local authorized dealer.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience with your MPOS Pistol Optics. Always prioritize safety and responsible handling of your firearm and optic.
