

MEPRO Tru Dot ADJUSTABLE SIGHTS - MEPRO TRU-DOT ADJ. RUGER GP100, RED HAWK, SUPER RED HAWK-G/G

MEPROLIGHT combat-proven self-illuminated adjustable night sights enable you to upgrade your capabilities to hit stationary or moving targets under low-light conditions with dramatically increased hit probability.

The MEPRO TRU-DOT Adjustable Day and Night sights are for those who demand greater accuracy. Windage and elevation adjustments on the rear sight allows you to compensate for windage, elevation, bullet weight and distance when zeroing. Front sight is fixed and cannot be adjusted.

TRU-DOT adjustable models offer a handgun sighting system for improved rapid instinctive aiming which requires no transition from day to night use. Day and night, the shooter's aiming reference is three solid dots, identical in appearance and location under all light conditions.

Designed as replacement parts for the standard weapon sights, Meprolight's Self-Illuminated adjustable night sights can be mounted directly with minor modifications.

Superior production methods and rigid quality control have made Meprolight the first choice among law enforcement agencies, defense decision-makers, and major weapon manufacturers. A full quality program, certified to ISO-9001:2008 and complying with NATO and US Military Specifications is in place. All products and processes at Meprolight® are performed, controlled, and monitored to these demanding quality levels.

Meprolight leads the world in OEM and after-market self-illuminated sights for handguns. Designed to replace the existing front and rear sights, the highly visible Tru-Dot adjustable sights are perfect for daylight, low-light, and nighttime conditions.

MEPRO Tru Dot Adjustable Sights Safety Instruction Guide

Introduction

Thank you for choosing the MEPRO Tru Dot Adjustable Sights. These combatproven selfilluminated night sights are designed to enhance your shooting accuracy in various lighting conditions. This guide will provide essential safety instructions, installation guidance, and other important information to ensure safe and effective use of your product.

General Safety Guidelines

- Ensure that the sights are installed correctly before use.
- Always handle firearms safely and responsibly.
- Keep the sights and firearms out of reach of children and unauthorized users.
- Regularly inspect the sights for any signs of damage or wear.
- Do not attempt to modify or alter the sights beyond the manufacturer's specifications.
- Use the sights only with compatible firearm models as specified by the manufacturer.
- Be aware of your surroundings and ensure a safe shooting environment.

Specific Safety Precautions for Use

- Always treat every firearm as if it is loaded.
- Before adjusting the sights, ensure the firearm is unloaded.
- Avoid pointing the firearm at anything you do not intend to shoot.
- Use appropriate eye and ear protection when shooting.
- Be aware of the effective range of your firearm and ensure you have a safe backstop.
- If you experience any difficulties with the sights, cease use immediately and consult a qualified professional.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure the firearm is unloaded and in a safe condition.
2. **Remove Old Sights:** Carefully remove the existing front and rear sights from your firearm using appropriate tools.
3. **Mount New Sights:**
 - Align the MEPRO Tru Dot Adjustable Sights in the sight dovetails.
 - Ensure the front sight is fixed in place.
 - Use minor modifications if necessary to ensure a secure fit.
4. **Adjusting the Rear Sight:**
 - Utilize the windage and elevation adjustments to zero the sights based on your shooting preferences.
 - Test the adjustments at a safe shooting range to confirm accuracy.
5. **Final Inspection:** Check that all components are securely attached and that the sights are functioning correctly.

Usage

- **Daylight Use:** The three solid dots serve as your aiming reference.
- **LowLight/Night Use:** The selfilluminated feature ensures visibility without the need for transition.
- **Shooting Practice:** Regular practice with the sights will enhance your accuracy and confidence.

Disposal Instructions

- Dispose of any damaged or nonfunctional sights in accordance with local regulations.
- Do not dispose of the sights in regular household waste. Instead, check for local recycling or hazardous waste programs that accept firearm accessories.

Contact Information for Further Support

For any inquiries related to the MEPRO Tru Dot Adjustable Sights, please refer to the manufacturer's website or contact customer support. Ensure you have your product information ready for efficient assistance.

Conclusion

By following these safety guidelines and instructions, you can maximize the performance of your MEPRO Tru Dot Adjustable Sights while ensuring safe usage. Always prioritize safety and responsibility in all shooting activities. Thank you for your commitment to safety and accuracy.
