

# Full Length Die 7/8 - Full Length Die 5,6x50 R Mag.

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Full Length Die 5,6x50 R Mag Safety Instructions

## Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 5,6x50 R Mag. This guide provides important safety instructions and information to ensure a safe and effective experience with your product. Please read the following guidelines carefully before use.

## General Safety Guidelines

- Ensure that the die is used only for its intended purpose, which is to size cartridge cases.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the workspace clean and free of distractions to maintain focus during use.
- Store the die and any related equipment out of reach of children and pets.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding reloading and the use of ammunition.

## Specific Safety Precautions for Use

- Be cautious of sharp edges on the die and related components. Handle with care to avoid cuts.
- Avoid overtightening the die in the press, as this may cause damage or misalignment.
- Only use compatible cartridge cases with the die to prevent malfunction or accidents.
- Ensure that the die is properly calibrated before starting the reloading process.
- If you experience any unusual sounds or resistance while using the die, stop immediately and inspect for issues.
- Do not attempt to modify the die or its components. Use only manufacturerapproved parts for replacements.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the die to your reloading press using the provided lock nut.
- Ensure that the die is positioned correctly and tightened to avoid any movement during use.
- Check that the expander and primer ejector pin are correctly installed and functioning.

### 2. Usage:

- Insert the cartridge case into the die.
- Apply a steady and even pressure to push the case fully into the die.
- After sizing, carefully remove the case and check for proper neck tension.
- If necessary, adjust the die position using the lock nut for optimal sizing results.

### 3. Calibration:

- The die will automatically calibrate when the cartridge case is pushed into it.
- Ensure that the neck of the case is calibrated from the inside when it is moved out of the die.

## Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Do not throw the die or its components in regular household waste. Check for recycling options in your

area.

## **Contact Information for Further Support**

For any questions or concerns regarding the Full Length Die 7/8 Full Length Die 5,6x50 R Mag, please refer to the manufacturer's manual or contact your retailer for assistance.

## **Conclusion**

Following these safety instructions will help ensure a safe and successful reloading experience. Always prioritize safety and compliance with local regulations when using reloading equipment. Thank you for your attention to these important guidelines.
