

Full Length Die 7/8 - Full Length Die 5,6x61 S.E.v.H.

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this manual carefully before using the die.

General Safety Guidelines

- Ensure that all users are familiar with the safe handling and operation of reloading equipment.
- Always use the die in accordance with the manufacturer's instructions provided in this guide.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Inspect the die for any damage or wear before each use. Do not use if any parts are damaged.
- Store the die in a safe and dry location when not in use to prevent corrosion or damage.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Wear appropriate safety gear, including safety glasses, to protect your eyes from debris during operation.
- Use the die only with compatible cartridge cases as specified by the manufacturer.
- Be cautious when handling primers and powder; these materials can be hazardous if not handled properly.
- Avoid overtightening the die in the press, as this may cause damage to the die or the press.
- Ensure that your work area is clean and free from distractions to maintain focus while reloading.
- Do not exceed the recommended load data for the cartridges you are reloading.

Instructions for Installation and Usage

1. Installation of the Die:

- Remove the die from its packaging and inspect it for any damage.
- Secure the die in your reloading press by threading it into the press using the 7/8 inch thread.
- Use the lock nut to set the position of the die. Ensure it is tightened securely.

2. Calibrating the Die:

- Insert the cartridge case into the die to begin the sizing process.
- The neck of the case will be calibrated as it is pushed out of the die.
- Check the neck tension to ensure it meets your specifications.

3. Using the Die:

- If necessary, replace the expander and ejector pin with minimal effort.
- Follow the manufacturer's recommendations for setting the correct position of the die in the press.
- Always refer to the manual for further instructions and assistance in selecting accessories and spare parts.

Disposal Instructions

- Dispose of any damaged or unusable components of the die in accordance with local regulations.
- Do not dispose of the die or any reloading materials in regular household waste.
- Check with local waste management authorities for proper disposal methods for hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8, please refer to the manufacturer's contact information provided in the product packaging or on their official website.

Thank you for your attention to these safety instructions. Safe reloading practices ensure not only your safety but also the quality of your ammunition. Enjoy your reloading experience!
