

# Full Length Die 7/8 - Full Length Die 6x47 Lapua

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 and 6x47 Lapua Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 7/8 and 6x47 Lapua. This guide provides important safety instructions and usage guidelines to ensure the safe and effective operation of your die. Please read this manual carefully before use.

## General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure the die is used in a welllit and clean workspace.
- Keep the die away from children and pets.
- Use appropriate personal protective equipment (PPE) such as safety glasses when operating the die.
- Regularly inspect the die for any signs of wear or damage before use.
- Do not attempt to modify or repair the die yourself. Contact a qualified technician for assistance.

## Specific Safety Precautions for Use

- Ensure that the die is securely mounted to the press before use to prevent accidents.
- Do not exceed the recommended specifications for cartridge case sizing.
- Always use the die according to the manufacturer's instructions to avoid potential hazards.
- Be aware of the potential hazards associated with reloading ammunition, including exposure to lead and other materials.
- Store the die in a dry and secure location when not in use to prevent damage and accidents.

## Instructions for Installation and Usage

### Installation

#### 1. Secure the Die:

- Thread the die into the press using the 7/8" thread.
- Tighten the lock nut to ensure stability during operation.

#### 2. Check Alignment:

- Confirm that the die is aligned properly with the press to ensure accurate sizing.

### Usage

#### 1. Prepare the Cartridge Case:

- Ensure the cartridge case is clean and free from any obstructions.

#### 2. Insert the Cartridge Case:

- Place the cartridge case into the die.
- Push the case into the die to begin the sizing process.

#### 3. Calibration:

- As the case is pushed into the die, the neck will be calibrated from the inside.
- Ensure that the case is moved out of the die smoothly to achieve the correct neck tension.

#### **4. Remove the Cartridge Case:**

- Carefully remove the sized cartridge case from the die after calibration.

#### **5. Maintenance:**

- Inspect the expander and ejector pin regularly. These components can be replaced easily if necessary.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die or its components in regular household waste. Contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Full Length Die 7/8 and 6x47 Lapua, please refer to the manufacturer's manual or contact the manufacturer directly.

Thank you for following these safety instructions. Your attention to detail will help ensure a safe and successful reloading experience.
