

Full Length Die 7/8 - Full Length Die 6x62 Frères

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read and follow these guidelines carefully.

General Safety Guidelines

- Ensure that the Full Length Die is used only for its intended purpose, which is to size cartridge cases in a safe manner.
- Always wear appropriate safety gear, including safety glasses and gloves, while handling reloading equipment and materials.
- Keep the workspace clean and organized to prevent accidents and ensure safe operation.
- Store the Full Length Die and all reloading components in a dry, secure place away from children and unauthorized users.
- Familiarize yourself with the product and its components before use. If you are unsure about any aspect of the die, consult the manual or seek assistance.

Specific Safety Precautions for Use

- Always check the die for damage or wear before use. Do not use a damaged die as it may pose safety risks.
- Ensure that the die is securely mounted in the press before attempting to resize any cartridge cases.
- Use only the recommended cartridge cases with the Full Length Die to avoid malfunctions or accidents.
- When resizing cases, keep hands and body parts clear of moving parts to avoid injury.
- Do not attempt to modify the die or its components. Any alterations may compromise safety and performance.
- If you experience any unusual noises or resistance while operating the die, stop immediately and inspect for issues before continuing.

Instructions for Installation and Usage

Installation

1. **Prepare the Press:** Ensure that your reloading press is clean and free from debris.
2. **Mount the Die:**
 - Screw the Full Length Die into the press until it is snug.
 - Use the lock nut to secure the die in place.
3. **Check Alignment:** Ensure that the die is properly aligned with the ram of the press.

Usage

1. **Prepare Cartridge Cases:** Clean and inspect your cartridge cases before resizing.
2. **Insert Case:** Place the cartridge case into the die.
3. **Resizing Process:**
 - Pull the handle of the press to push the cartridge case into the die.
 - Allow the neck of the case to be calibrated from the inside as it exits the die.
4. **Remove Case:** Once resized, carefully remove the cartridge case from the die.
5. **Repeat:** Repeat the process for additional cartridge cases as needed.

Disposal Instructions

- Dispose of any damaged or worn components of the Full Length Die in accordance with local regulations.
- Do not dispose of the die or its components in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For further assistance or inquiries regarding the Full Length Die, please refer to the manufacturer's website or contact the customer support team. Ensure you have the product's article number available for faster service.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and enjoyable reloading experience.
