

Full Length Die 7/8 - Full Length Die 6mm BR Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 and Full Length Die 6mm BR Rem. This guide provides important safety instructions and information to ensure the safe use of this product. Please read and follow these instructions carefully.

General Safety Guidelines

- Ensure safe use of the Full Length Die by following all instructions.
- Regularly inspect the die for any signs of wear or damage before use.
- Keep the die out of reach of children and vulnerable individuals.
- Store the die in a dry and safe location to prevent accidents.
- Be aware of the specific risks associated with reloading ammunition.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the die.
- Ensure that the die is securely attached to the press before use.
- Do not exceed the recommended specifications for the die to avoid malfunction.
- Avoid using the die with damaged or improperly sized cartridge cases.
- Follow the manufacturer's instructions for calibration and operation to ensure safe use.

Instructions for Installation and Usage

1. Installation:

- Remove the die from its packaging and inspect it for any damage.
- Securely attach the die to the reloading press using the provided lock nut.
- Ensure that the die is positioned correctly for fulllength sizing.

2. Calibration:

- Insert the cartridge case into the die and apply pressure to calibrate the neck from the inside.
- Ensure that the case is fully seated in the die before applying force.

3. Operation:

- Use the removable expander and primer ejector pin as needed.
- Regularly check the expander and ejector pin for wear and replace them if necessary.
- Follow the manual for detailed instructions on using the die for various cartridge cases.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the Full Length Die, please refer to the manufacturer's manual or contact the EUbased support service for assistance.

Conclusion

By following these safety instructions, you can ensure a safe and efficient reloading experience with the Full Length Die. Always prioritize safety and consult the manual for additional guidance as needed. Thank you for your attention to these important safety measures.
