

Full Length Die 7/8 - Full Length Die 6mm PPC

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 6mm PPC. This guide provides important safety information and instructions for the safe use of this product. Please read this guide carefully before using the die to ensure safe operation and maintenance.

General Safety Guidelines

- Ensure safe use of the Full Length Die by following all instructions.
- Always use the die in accordance with the manufacturer's guidelines.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of damage or wear before use.
- If you notice any defects, do not use the die and contact a professional for advice.
- Follow all safety precautions when using any tools or equipment in conjunction with the die.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses, when using the die.
- Avoid wearing loose clothing or jewelry that could get caught in the die or press.
- Ensure that the work area is clean and free of any obstructions.
- Do not exceed the recommended operating limits for the die and press.
- Use only the recommended cartridges and components with the die.
- Ensure that the die is securely mounted in the press before use.
- Do not attempt to modify the die or use it for any purpose other than intended.

Instructions for Installation and Usage

1. Installation

- Ensure that the press is turned off and disconnected from power before installation.
- Securely mount the Full Length Die into the press using the lock nut.
- Check that the die is aligned properly and is stable before proceeding.

2. Calibration

- Insert the cartridge case into the die to calibrate it.
- The neck of the case will be calibrated from the inside as it is moved out of the die.
- Ensure that the correct neck tension is achieved for optimal performance.

3. Usage

- Always follow the manufacturer's instructions for operating the press and die.
- Monitor the die and cartridge closely during operation for any signs of malfunction.
- If the die becomes difficult to operate, stop immediately and check for obstructions or wear.

4. Maintenance

- Regularly clean the die to prevent buildup of debris and ensure smooth operation.
- Inspect the expander and ejector pin for wear and replace if necessary.
- Store the die in a dry, safe location when not in use.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Recycle materials whenever possible to minimize environmental impact.
- Do not dispose of the die in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die, please refer to the manufacturer's manual or contact customer support for assistance. Always keep the manual handy for future reference.

By following these safety guidelines and instructions, you can ensure safe and effective use of the Full Length Die 7/8 Full Length Die 6mm PPC. Thank you for your attention to safety and responsible usage.
