

Full Length Die 7/8 - Full Length Die 6mm PPC-USA

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 6mm PPCUSA. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read through the entire guide before using the die.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose, which is to size cartridge cases.
- Always wear appropriate safety gear, including safety glasses and gloves, when using the die.
- Keep the work area clean and free of clutter to prevent accidents.
- Store the die in a safe place away from children and unauthorized users.
- Regularly inspect the die for wear and damage before each use.
- If you notice any damage or malfunction, cease use immediately and seek assistance.

Specific Safety Precautions for Use

- **Calibration Safety:** Ensure that the die is properly calibrated before use. Calibration takes place when the cartridge case is pushed into the die. Incorrect calibration may lead to improper sizing.
- **Handling the Expander and Ejector Pin:** The expander and ejector pin are removable. Handle these components with care to avoid injury. Ensure they are securely attached before operating the die.
- **Lock Nut Adjustment:** When setting the die in the press, use the lock nut to secure it in place. Ensure it is tightened sufficiently to prevent movement during use.
- **Cartridge Case Handling:** Always handle cartridge cases with care to avoid sharp edges. Ensure that your hands are dry and free from any substances that may cause slipping.
- **Working Environment:** Use the die in a well-ventilated area to avoid inhaling any dust or debris generated during the sizing process.

Instructions for Installation and Usage

1. Installation:

- Ensure the press is turned off and unplugged before installation.
- Securely mount the die into the press using the 7/8 thread.
- Adjust the die height using the lock nut to achieve the desired sizing depth.
- Check that the expander and ejector pin are properly installed and functioning.

2. Usage:

- Prepare the cartridge case by cleaning and inspecting it for damage.
- Insert the cartridge case into the die.
- Apply gentle pressure to push the case into the die for sizing.
- Remove the sized cartridge case and inspect it for proper neck tension.
- Repeat the process as necessary for additional cases.

Disposal Instructions

- Dispose of any damaged or wornout components according to local regulations.
- Do not dispose of the die in regular household waste. Check with local waste management authorities for proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die, please refer to the manual for further instructions and assistance with selecting accessories and spare parts. If you encounter any safety issues, please report them to the relevant authorities.

By following these safety instructions, you will ensure a safe and effective experience with your Full Length Die. Thank you for your attention to safety!
