

# Full Length Die 7/8 - Full Length Die 6,5x57

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Safety Instruction Guide for Full Length Die 7/8 and Full Length Die 6,5x57

## Introduction

Thank you for choosing the Full Length Die 7/8 and Full Length Die 6,5x57. This product is designed to help you size cartridge cases safely and effectively. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that all safety instructions are followed during the use of this product.
- Always inspect the die and its components for wear or damage before use.
- Keep the die and its components out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the die only for its intended purpose: sizing cartridge cases.
- Always wear safety glasses to protect your eyes from debris.
- Handle the die with care to avoid injury from sharp edges.
- Ensure that the die is securely mounted in the press before use.
- Do not exceed the recommended load specifications for the die.
- Keep your work area clean and organized to prevent accidents.
- Do not modify the die or its components in any way.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the press is turned off and unplugged before installation.
- Securely attach the die to the press using the lock nut. Make sure it is firmly in place.
- Check that the die is aligned properly with the press ram.

### 2. Usage:

- Insert the cartridge case into the die.
- Operate the press slowly and steadily to size the cartridge case.
- Monitor the process closely to ensure the case is sized correctly.
- After sizing, remove the cartridge case from the die.
- Inspect the neck tension to ensure proper calibration.

### 3. Maintenance:

- Regularly clean the die and its components to prevent buildup of debris.
- Replace worn or damaged parts, such as the expander or ejector pin, as needed.
- Store the die in a dry and safe location when not in use.

## Disposal Instructions

- Dispose of the product and its components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for recycling options.

- Ensure that any hazardous materials are handled and disposed of safely.

## **Contact Information for Further Support**

For any inquiries regarding safety, maintenance, or replacement parts, please refer to the product manual or contact your retailer for assistance.

Thank you for following these safety instructions. Your adherence to these guidelines helps ensure a safe and effective reloading experience.
