

Full Length Die 7/8 - Full Length Die 6,5x64

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Full Length Die 7/8 and Full Length Die 6,5x64

Introduction

Thank you for choosing the Full Length Die 7/8 and Full Length Die 6,5x64. This guide provides important safety information, usage instructions, and disposal guidelines to ensure safe and effective use of your product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the die is used only for its intended purpose: sizing cartridge cases.
- Always wear appropriate safety gear, such as safety glasses, when operating reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a dry, secure location away from children and pets.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Use only compatible cartridge cases with the die to avoid malfunction.
- Do not exceed recommended pressure limits when resizing cases.
- Ensure that the die is securely fastened in the reloading press before use.
- Avoid placing hands or body parts near the die while it is in operation.
- If the die becomes stuck or jammed, do not force it. Stop using the die and seek assistance.
- Dispose of any damaged or worn components responsibly.

Instructions for Installation and Usage

Installation

1. Secure the Die:

- Thread the die into the reloading press using the 7/8 thread.
- Tighten using the lock nut to ensure it is firmly in place.

2. Check Alignment:

- Ensure that the die is aligned properly with the press and the cartridge case.

3. Insert the Cartridge Case:

- Place the cartridge case into the press and ensure it is seated correctly.

Usage

1. Calibrate the Die:

- Push the cartridge case into the die. This will calibrate the neck of the case from the inside as it is moved out of the die.

2. Check Neck Tension:

- After resizing, check the neck tension to ensure it meets your specifications.

3. Replaceable Components:

- If necessary, replace the expander or ejector pin with minimal effort.

4. Final Inspection:

- Inspect the resized cartridge case for any defects before use.

Disposal Instructions

- Dispose of the die and any components in accordance with local regulations.
- Do not dispose of the die in household waste if it is damaged beyond repair.
- Check with local recycling programs for proper disposal methods for metal items.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8 and Full Length Die 6,5x64, please refer to the manufacturer's manual or contact the manufacturer directly for assistance.

Conclusion

Following these safety instructions will help ensure a safe and effective reloading experience. Always prioritize safety and compliance with regulations when using reloading equipment. Thank you for your attention to these important safety guidelines.
