

# Full Length Die 7/8 - Full Length Die 6,5x65 RWS

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die Safety Instructions

## Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 6.5x65 RWS. This guide provides important safety instructions and usage information to ensure safe handling and operation of the die. Please read this document carefully before using the product.

## General Safety Guidelines

- Always handle the die with care to prevent injury.
- Use the die only for its intended purpose as described in this manual.
- Keep the die out of reach of children and unauthorized users.
- Regularly inspect the die for any signs of wear or damage before use.
- If any part of the die appears damaged, do not use it and contact a qualified technician for assistance.
- Ensure that your workspace is clean and organized to prevent accidents.

## Specific Safety Precautions for Use

- Wear appropriate safety gear, including eye protection, when using the die.
- Keep hands clear of moving parts during operation.
- Ensure that the die is securely mounted in the press before use to prevent it from loosening during operation.
- Do not exceed the maximum pressure specifications for the die.
- Follow all manufacturer guidelines for the reloading process to minimize risks.

## Instructions for Installation and Usage

### 1. Installation:

- Securely mount the die in the press using the lock nut provided.
- Ensure that the die is positioned correctly to allow for fulllength sizing of the cartridge case.
- Check that the expander and ejector pin are properly installed and functional.

### 2. Usage:

- Insert the cartridge case into the die until it is fully seated.
- Apply consistent pressure to the press handle to size the cartridge case.
- After sizing, carefully remove the cartridge case from the die.
- Inspect the neck of the case to ensure it has been calibrated correctly.
- If necessary, adjust the die position using the lock nut for optimal performance.

## Disposal Instructions

- Dispose of any damaged or worn parts of the die in accordance with local regulations.
- Recycle materials where possible to minimize environmental impact.
- Ensure that all components are disposed of safely to prevent accidental injury.

## Contact Information for Further Support

For any questions or concerns regarding the Full Length Die, please reach out to your local retailer or the manufacturer for assistance. It is important to have access to support for safe usage and maintenance.

Thank you for your attention to these safety instructions. Enjoy using your Full Length Die responsibly and

safely.
