

Full Length Die 7/8 - Full Length Die 6,5-284 Norma

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 and Full Length Die 6.5284 Norma Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 and Full Length Die 6.5284 Norma. This guide provides essential safety instructions to ensure the safe use of this product. Please read the entire guide carefully before using the die.

General Safety Guidelines

- Ensure that the die is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the die and cartridges.
- Keep the workspace clean and organized to prevent accidents.
- Ensure that the die is compatible with the cartridge cases you intend to use.
- Store the die in a dry place, away from moisture and extreme temperatures.
- Regularly inspect the die for signs of wear or damage before each use.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Risk of injury from sharp edges or moving parts.
 - Risk of incorrect sizing leading to malfunction or accidents during firearm operation.
- **Avoiding Hazards:**
 - Always ensure that the die is securely mounted in the press before use.
 - Do not exceed the recommended pressure when sizing cartridges.
 - Do not modify the die or use it for purposes other than intended.
 - Keep hands and other body parts clear of moving parts during operation.
 - If you experience resistance while sizing, stop immediately and check for obstructions.

Instructions for Installation and Usage

1. Installation:

- Ensure that the reloading press is turned off and unplugged (if applicable).
- Securely mount the Full Length Die into the press using the provided lock nut.
- Adjust the die to the correct position, ensuring it is aligned with the press ram.

2. Usage:

- Insert the cartridge case into the die.
- Push the case into the die using the press mechanism.
- The die will size the case and calibrate the neck from the inside.
- Once the sizing process is complete, remove the cartridge case from the die.
- Inspect the cartridge case for proper sizing and neck tension.
- Replace the expander and ejector pin if necessary, following the manufacturer's instructions.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided in the product packaging or manual.

Conclusion

Following these safety instructions will help ensure a safe and effective reloading experience with the Full Length Die 7/8 and Full Length Die 6.5284 Norma. Always prioritize safety and consult the manual for any additional information or clarifications.
