

Full Length Die 7/8 - Full Length Die 7x75 R SE v.H

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8. This product is designed to help you size cartridge cases safely and effectively. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure safe use of the Full Length Die by following all instructions.
- Keep the die and all components out of reach of children and vulnerable individuals.
- Always inspect the die and its components before use for any signs of damage or wear.
- If you suspect a product defect or experience any issues, stop using the die immediately and seek assistance.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about any product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses, when using the die.
- Use the die in a wellventilated area to avoid inhalation of any dust or debris.
- Do not exceed the manufacturer's specifications for cartridge case sizing.
- Ensure that the die is securely mounted in the press before use.
- Keep hands and other body parts clear of moving parts during operation.
- Never force a cartridge case into the die; if it does not fit easily, check for obstructions or damage.
- Follow the manufacturer's instructions for replacing any components, such as the expander or ejector pin.

Instructions for Installation and Usage

1. Installation:

- Securely mount the Full Length Die into your reloading press using the lock nut provided.
- Ensure that the die is aligned properly to avoid any misalignment during operation.

2. Usage:

- Insert the cartridge case into the die, ensuring it is seated correctly.
- Operate the press to push the cartridge case into the die.
- The neck of the case will be calibrated during this process.
- Once sizing is complete, carefully remove the cartridge case from the die.
- Check the neck tension of the case to ensure it meets your specifications.

3. Component Replacement:

- If necessary, replace the expander and ejector pin by following the manufacturer's instructions.
- Ensure that replacement components are compatible with the Full Length Die.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die or its components in general waste. Instead, check for recycling options or proper disposal methods in your area.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8, please refer to the product manual or reach out to the manufacturer for assistance. Ensure you have the article number ready for easy reference.

By following these guidelines, you can ensure a safe and effective reloading experience with your Full Length Die 7/8. Thank you for your attention to safety.
