

# Full Length Die 7/8 - Full Length Die 7,5x55 GP11

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 User Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This guide is designed to provide you with essential safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the die.

## General Safety Guidelines

- Always handle the Full Length Die with care to prevent injury.
- Ensure that the die is used only for its intended purpose: sizing cartridge cases.
- Keep the die and all associated tools out of the reach of children and pets.
- Inspect the die for any damage before each use. If you find any defects, do not use the die.
- Follow all local laws and regulations regarding the reloading of ammunition.
- Wear appropriate safety gear, including safety glasses, when working with reloading equipment.
- Be aware of your surroundings when using the die, ensuring that you are in a safe environment.

## Specific Safety Precautions for Use

- Ensure that the die is securely mounted in the press before use to prevent movement during operation.
- Use the die only with compatible cartridge cases as specified in the product specifications.
- Avoid overtightening the lock nut, as this may damage the die or affect its performance.
- When calibrating the cartridge case, do so slowly and with care to avoid damaging the case or the die.
- If you experience resistance when sizing a cartridge case, stop immediately and inspect both the case and the die for issues.
- Do not attempt to modify or repair the die yourself. Contact a professional if repairs are needed.

## Instructions for Installation and Usage

### 1. Installation of the Die:

- Remove the die from its packaging and inspect it for any damage.
- Clean the die with a soft cloth to remove any manufacturing residues.
- Insert the die into the press and tighten the lock nut to secure it in place.
- Ensure that the die is aligned correctly with the press.

### 2. Using the Die:

- Prepare your cartridge cases by cleaning them thoroughly.
- Insert a cartridge case into the die and push it down gently using the press handle.
- The expander will adjust the neck of the case from the inside as it moves out of the die.
- Check the neck tension after sizing to ensure it meets your specifications.
- Repeat the process for each cartridge case, ensuring that you maintain a consistent technique.

### 3. Maintenance:

- After use, clean the die to remove any debris or residue.
- Store the die in a dry place to prevent rust or corrosion.
- If any components, such as the expander or ejector pin, become worn, replace them promptly.

## **Disposal Instructions**

- Dispose of any damaged or unusable parts in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the die in regular household waste if it is still functional. Consider donating or selling it.

## **Contact Information for Further Support**

For any questions or concerns regarding the Full Length Die 7/8, please consult the product manual or contact your retailer for assistance. It is important to ensure that you have access to support for any issues that may arise during use.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Full Length Die 7/8. Always prioritize safety and compliance with local laws and regulations. Thank you for your attention to these important details.
