

# Full Length Die 7/8 - Full Length Die 7,5x55 K31

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instructions

## Introduction

Thank you for choosing the Full Length Die 7/8 for sizing cartridge cases. This safety instruction guide is designed to help you use the product safely and effectively, in compliance with EU General Product Safety Regulation (GPSR). Please read these instructions carefully before using the product.

## General Safety Guidelines

- Ensure safe use of the Full Length Die by following all instructions.
- Be aware of potential hazards associated with reloading equipment.
- Always keep the die out of reach of children and vulnerable individuals.
- Regularly check for any recalls or safety updates regarding the product.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when using the die.
- Ensure that the workspace is clean and free of obstructions.
- Do not exceed the recommended cartridge specifications for the die.
- Keep hands and body clear of moving parts during operation.
- Do not modify the die or use it for purposes other than intended.
- If you notice any damage to the die, discontinue use immediately and seek replacement parts.
- Use only compatible components with the die to avoid malfunctions.

## Instructions for Installation and Usage

### 1. Installation:

- Secure the die in the reloading press using the lock nut.
- Ensure the die is aligned correctly to avoid misalignment during operation.

### 2. Usage:

- Insert the cartridge case into the die.
- Push the case fully into the die to initiate the sizing process.
- The neck of the case will be calibrated from the inside as it is removed from the die.
- Check the neck tension after sizing to ensure it meets specifications.
- Replace the expander and ejector pin if necessary, following the manufacturer's guidelines.

## Disposal Instructions

- Dispose of any used or damaged components in accordance with local regulations.
- Do not dispose of the die or its components in regular household waste.
- Consult local waste management authorities for proper disposal methods.

## Contact Information for Further Support

For any questions regarding the Full Length Die 7/8 or for safety inquiries, please refer to the manufacturer's contact information provided in the product manual.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Full Length Die 7/8. Thank you for prioritizing safety in your reloading practices.
