

Full Length Die 7/8 - Full Length Die 7,62x54 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Safety Instruction Guide

Introduction

Thank you for purchasing the Full Length Die 7/8 for the 7.62x54 R cartridge. This guide provides essential safety instructions and operational guidelines to ensure safe and effective use of the die. Adhering to these guidelines helps protect users and promotes safe practices in reloading ammunition.

General Safety Guidelines

- Ensure that you understand all safety instructions before using the Full Length Die.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling reloading equipment and components.
- Keep the workspace clean and organized to prevent accidents.
- Store the die and all reloading components out of reach of children and vulnerable individuals.
- Familiarize yourself with the potential hazards associated with reloading ammunition.
- Report any unsafe conditions or product malfunctions to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the recommended load limits for the cartridge.
- Ensure that the die is securely mounted in the press before use.
- Always check the die for damage or wear before each use.
- Avoid using the die with incompatible cartridges or components.
- Maintain a safe distance from others while using the die, especially when operating the press.
- Follow all manufacturer recommendations for die maintenance and cleaning.

Instructions for Installation and Usage

1. Installation

- Securely attach the Full Length Die to the reloading press using the lock nut. Ensure it is tightened properly to prevent movement during operation.
- Check the alignment of the die with the press to ensure proper function.

2. Calibration

- To calibrate the die, insert the cartridge case into the die.
- The neck of the case will be calibrated from the inside as it is pushed out of the die.
- Ensure that the calibration is correct to achieve the desired neck tension.

3. Using the Die

- Insert the cartridge case into the die and operate the press according to the manufacturer's instructions.
- Use the removable expander and ejector pin as needed, and replace them if they show signs of wear.
- After use, clean the die to remove any debris or residue.

Disposal Instructions

- Dispose of any damaged or wornout components in accordance with local regulations.
- Recycle packaging materials where possible.
- Ensure that any hazardous materials are disposed of safely and responsibly.

Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8, please refer to the product manual or contact your retailer for assistance.

Conclusion

Following these safety instructions will help ensure a safe and efficient reloading experience with the Full Length Die 7/8. Always prioritize safety and adhere to the guidelines provided in this document. Thank you for choosing our product, and happy reloading!
