

Full Length Die 7/8 - Full Length Die 30 BR

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 30 BR. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the die to understand how to operate it safely and efficiently.

General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure that your workspace is clean and organized to prevent accidents.
- Use personal protective equipment (PPE) such as safety glasses and gloves when using the die.
- Keep the die out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage before use.
- Follow all instructions provided in this guide to avoid hazards.

Specific Safety Precautions for Use

- Ensure that the die is securely attached to the press before operation to prevent it from loosening during use.
- Do not exceed the recommended pressure settings when using the die, as this may cause damage or accidents.
- Avoid placing your hands or any body part near the die while it is in operation.
- Be cautious of sharp edges on the die and other components; handle them with care.
- If the die becomes jammed or does not operate smoothly, stop using it immediately and inspect for issues.
- Do not attempt to modify or repair the die without proper knowledge and tools.

Instructions for Installation and Usage

1. Installation:

- Ensure that the press is turned off and unplugged before installation.
- Secure the die into the press using the lock nut, ensuring it is tightly fastened.
- Check that the die is aligned correctly with the press for optimal performance.

2. Usage:

- Insert the cartridge case into the die, ensuring it is seated properly.
- Gradually push the cartridge case into the die using the press handle.
- Monitor the operation closely and stop if any unusual resistance is felt.
- Once the case is sized, carefully remove it from the die.
- Regularly clean the die to maintain its performance and longevity.

Disposal Instructions

- Dispose of the die and any related components in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- Consider recycling options for metal components where available.

Contact Information for Further Support

For any questions or concerns regarding the use of the Full Length Die, please refer to the manufacturer's manual or contact the manufacturer directly for further assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Full Length Die. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention to these important guidelines.
