

Full Length Die 7/8 - Full Length Die 300 H&H Mag

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Full Length Die 7/8 Full Length Die 300 H&H Mag Safety Instruction Guide

Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 300 H&H Mag. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your die. Please read this document carefully before using the product.

General Safety Guidelines

- Always handle the die with care to avoid injury.
- Ensure that the die is used in accordance with the manufacturer's instructions.
- Keep the die out of reach of children and vulnerable individuals.
- Inspect the die regularly for any signs of damage or wear before use.
- Do not use the die if it is damaged or malfunctioning.
- Be aware of your surroundings and ensure a safe working environment when using the die.
- Follow all local laws and regulations regarding the use of reloading equipment.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the die.
- Avoid wearing loose clothing or jewelry that may become entangled in the equipment.
- Ensure that the die is securely mounted in the press before use.
- Do not exceed the recommended pressure limits when resizing cartridge cases.
- Always keep your hands and body clear of moving parts during operation.
- Be cautious of hot surfaces; the die may become hot during use.
- Store the die in a dry place to prevent corrosion and damage.

Instructions for Installation and Usage

1. Installation:

- Ensure that the press is turned off and unplugged before installation.
- Securely mount the die onto the press using the provided lock nut.
- Verify that the die is positioned correctly and aligned with the press mechanism.

2. Usage:

- Insert the cartridge case into the die.
- Gradually apply pressure to resize the cartridge case.
- Once the case is fully engaged, remove it carefully from the die.
- Check the neck tension of the resized case; if necessary, adjust the die position and repeat the process.
- After use, clean the die to remove any residue and store it properly.

Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local regulations.
- Do not dispose of the die in regular household waste.
- Consider recycling the die if possible, as it may contain materials that can be reused.

Contact Information for Further Support

For any questions or concerns regarding the use of the Full Length Die 7/8 Full Length Die 300 H&H Mag, please refer to the product manual or contact the manufacturer directly. Ensure that you have the product's article number available for reference.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Full Length Die 7/8 Full Length Die 300 H&H Mag. Always prioritize safety and adhere to the recommendations outlined in this guide. Thank you for your attention to these important safety measures.
