

# Full Length Die 7/8 - Full Length Die 303 British

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 Safety Instructions

## Introduction

Thank you for choosing the Full Length Die 7/8 for your reloading needs. This product is designed to provide reliable performance while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use the die safely and effectively.

## General Safety Guidelines

- Ensure that the Full Length Die is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses, when operating reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a safe place, out of reach of children and pets.
- Regularly inspect the die for any signs of wear or damage before use.
- If you notice any issues, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Always check that the die is securely attached to the press before use.
- Use the die only for its intended purpose: sizing cartridge cases.
- Do not attempt to modify the die or its components.
- Be cautious when handling spent primers and other materials that may be hazardous.
- Ensure you are familiar with the reloading process and the specific requirements for the 303 British cartridge before use.

## Instructions for Installation and Usage

### 1. Installation

- Ensure the reloading press is turned off and unplugged (if applicable).
- Remove any existing die from the press.
- Insert the Full Length Die into the press and secure it using the lock nut.
- Adjust the die to the desired position for sizing the cartridge case.

### 2. Usage

- Place the cartridge case into the shell holder of the reloading press.
- Pull the handle of the press to push the cartridge case into the die.
- The neck of the case will be calibrated as it exits the die, ensuring proper neck tension.
- If necessary, replace the expander or primer ejector pin by following the manufacturer's instructions.

## Disposal Instructions

- Dispose of spent primers and any other hazardous materials in accordance with local regulations.
- Do not throw the die in regular trash. Instead, check with local waste management for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the Full Length Die 7/8, please refer to the manufacturer's website or contact their customer support for assistance.

## Conclusion

By following these safety instructions, you can ensure a safe and effective reloading experience with the Full Length Die 7/8. Always prioritize safety and be aware of your surroundings while using reloading equipment. Thank you for choosing our product, and happy reloading!
