

# Full Length Die 7/8 - Full Length Die 8x60 S

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 7/8 Full Length Die 8x60 S. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this manual carefully before using the die.

## General Safety Guidelines

- Ensure that the die is used only for its intended purpose: sizing cartridge cases.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the die for wear and damage before each use.
- Follow all local laws and regulations regarding ammunition reloading.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Risk of injury from moving parts.
- Risk of improper sizing leading to ammunition failure.
- Potential for lead exposure from handling spent cartridges.

### • Instructions to Avoid Hazards:

- Ensure the die is securely mounted in the press before use.
- Do not attempt to modify or alter the die in any way.
- Always follow the manufacturer's specifications for cartridge case sizing.
- Use the die only with compatible reloading equipment.
- Avoid direct contact with the die's internal components during operation.

### • AgeSpecific Warnings:

- This product is not intended for use by individuals under the age of 18.
- Ensure that inexperienced users are supervised by a knowledgeable adult.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the reloading press is turned off and unplugged.
- Securely mount the Full Length Die into the reloading press using the provided lock nut.
- Check that the die is properly aligned and tightened before use.

### 2. Usage:

- Insert the cartridge case into the die.
- Activate the press to push the case into the die, allowing for sizing.
- After sizing, remove the cartridge case from the die.
- Inspect the case for proper neck tension and overall sizing.
- If necessary, replace the expander and ejector pin as per the manufacturer's instructions.

### **3. Calibration:**

- Calibration occurs automatically as the cartridge case is pushed into the die.
- Ensure that the neck of the case is calibrated from the inside when it is moved out of the die.

## **Disposal Instructions**

- Dispose of any damaged or worn dies in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for local recycling or hazardous waste disposal options.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or maintenance of the Full Length Die, please refer to the manufacturer's contact information provided in the product packaging or manual.

## **Conclusion**

By following the safety instructions and guidelines outlined in this manual, you can ensure a safe and effective experience with your Full Length Die. Always prioritize safety and consult the manual for any questions regarding usage. Thank you for your attention to these important safety measures.
