

# Full Length Die 7/8 - Full Length Die 8x65 RS

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 and 8x65 RS Safety Instruction Guide

## Introduction

Thank you for choosing the Full Length Die 7/8 and 8x65 RS. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this manual carefully before use to understand the necessary precautions and instructions.

## General Safety Guidelines

- Ensure safe handling of the die to prevent injuries.
- Always use the die in accordance with the manufacturer's instructions.
- Keep the die and its components out of reach of children and vulnerable individuals.
- Regularly inspect the die for wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recalls and safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the die.
- Avoid using excessive force when sizing cartridge cases to prevent damage to the die or injury.
- Ensure that the die is securely mounted in the press before use.
- Do not attempt to modify or repair the die yourself; contact a professional if repairs are needed.
- Be cautious when handling the expander and ejector pin; these components can be sharp.
- Follow all local regulations regarding the use and handling of ammunition components.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the Full Length Die to your reloading press using the provided lock nut.
- Ensure that the die is aligned correctly and that there is no wobble or movement.

### 2. Calibration:

- Insert the cartridge case into the die.
- Push the cartridge case fully into the die to calibrate the neck from the inside.
- Check for proper neck tension once the case is removed.

### 3. Using the Expander and Ejector Pin:

- Use the removable expander to adjust the internal dimensions of the cartridge case as needed.
- The integrated primer ejector pin can be used to remove spent primers safely.

### 4. Maintenance:

- Regularly clean the die and its components to prevent buildup of debris.
- Replace any worn or damaged spindles, expanders, or ejector pins as necessary.

## Disposal Instructions

- Dispose of any damaged or wornout components according to local regulations.

- Do not throw the die or its components in regular household waste.
- Contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For additional assistance or inquiries regarding safety and usage, please refer to the manufacturer's customer service or visit their official website for more information.

Thank you for your attention to these safety guidelines. Your safety is our priority.
